

LUAN ALVES

Agronomic Engineering

ABOUT ME

Agronomic Engineering professional with a great desire to learn and develop. I started my professional life at Grupo Sendi where I worked as an intern in the area of controllership and finance. In Agribusiness, my career began as an Agronomic Efficiency Intern, working in the field with Corn and Potatoes. So I embarked on a new opportunity, now as a Corporate Trainee for Clients & Solutions in Soybean Marketing and Sales Strategy at Nutrien Ag Solutions, dealing with support and internal and external communication for the Soybean area. I am currently looking for new challenges in Agribusiness, new learning and opportunities for growth and development.
