Alabama Natural Heritage Program

Species Report FormPlease enter all information available to you and include a sketch or map showing the location of the species if possible.

Observation Information:	
Observer:	Date of Observation:
Title & Affiliation:	
Address:	
Phone:	E-mail:
Others knowledgeable about this observation _	
Occurrence Information:	
	Scientific Name
Number/age of individuals:	Gelenate Panie
Estimated size of area occupied:	
Site/Habitat Description (dominant plants, land	Iform type, water conditions, other species present, etc.):
Ditoritational Description (dominant plants, land	Total type, water conditions, outer species present, etc.).
Evidence of occurrence taken (yes/no) (photo,	specimen, etc. – if yes, location of evidence):
	· · · · · · · · · · · · · · · · · · ·
Location Information:	
	_
Site Name:	County: Section(s):
Topographic () und Nama(s):	
Topographic Quad Name(s).	Section(s):
Coordinates (Lat/Long, UTM, etc.):	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained?	
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained? Directions to Occurrence (include descriptions	of landmarks and distances if possible):
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained? Directions to Occurrence (include descriptions Additional comments (weather conditions, spec	of landmarks and distances if possible): cies ID questions, current land use, landowner information, habitat threats/
Coordinates (Lat/Long, UTM, etc.): How where coordinates obtained? Directions to Occurrence (include descriptions	of landmarks and distances if possible): cies ID questions, current land use, landowner information, habitat threats/
