Poster Presentation Notification

We are pleased to inform you that your abstract entitled “**Hypertrophic Responses Do Not Completely Explain Increases in Strength After 12 Weeks of Resistance Training in Previously Untrained Young Men**” has been accepted for presentation in a **free communication/poster** session at the 2018 Annual Meeting, World Congress on Exercise is Medicine®, and World Congress on the Basic Science of Muscle Hypertrophy and Atrophy of the American College of Sports Medicine being held at the Minneapolis Convention Center and Hyatt Regency Minneapolis Hotel in Minneapolis, Minnesota, May 29-June 2, 2018. Your abstract will be published in *Medicine and Science in Sports and Exercise*, Volume 50:5 Supplement. Your presentation date and time are as follows:

Author Block: Christopher G. Vann, Cody T. Haun, C. Brooks Mobley, Matthew A. Romero, Paul A. Roberson, Petey W. Mumford, Wesley C. Kephart, Shelby O. Osburn, Michael D. Roberts. *Auburn University, Auburn, AL.*
 Session Title: Resistance Training
 Session Number: D-57
 Session Viewing Date/Time: Thursday May 31, 2018 1:00 PM - 6:00 PM
 Presentation Time: 2:00pm - 3:30pm

You will receive an additional email notification in April that will include your poster board number and additional reminders.

Session Details

Attendees consider the poster sessions an important and valuable part of the educational program of the Annual Meeting, World Congress on Exercise is Medicine®, and World Congress on the Basic Science of Muscle Hypertrophy and Atrophy. Therefore, the Program Committee has determined the following viewing times of the posters. **If you are presenting your poster in a morning session, you must mount your poster on the assigned display board at 7:30 a.m. and remove your material at 12:30 p.m. (If presenting on Saturday, you will need to remove your material at 11:00 a.m.) If you are presenting your poster in an afternoon session, you must mount your poster on the assigned**

display board at 1:00 p.m. and remove your material at 6:00 p.m. You are required to be present at your poster during the entire one and one-half hour presentation time, which is listed above. Your poster must be mounted for the entire viewing time as listed above.

Because of the importance of the poster sessions, we have a policy that applies to those infrequent instances when a session does not occur as scheduled. We note there have been several “no shows” among posters over the last few years, which disappoints attendees and detracts from the program. To address this, and maintain the quality and dependability of the program, the Program Committee now has assigned a chairperson to oversee the poster sessions. The chairperson will monitor that posters are placed on boards as assigned and that the author is present at the poster during the designated time.

Failure to present is considered a no-show and the Program Committee will contact you following the meeting for an explanation. The Board of Trustees has a long-standing policy stating that speakers who fail to provide notice of a reason acceptable to the Program Committee for not delivering an accepted paper will be prohibited from presenting at future Annual Meetings. Also, be advised per Program Committee policy, only the first author may withdraw the abstract.

In the event an emergency arises prior to or during the meeting that prohibits you from presenting your material, please immediately inform Danielle Apostolidis in the Education Department at ACSM in writing by e-mailing ddavis@acsm.org.

To assist in the preparation of your session, we have developed instructions and recommendations for poster presentations. [Click here](#) to access the poster instructions. Please prepare your poster according to the "Poster Presentation - Session Format" instructions.

The Program Committee has worked diligently to minimize content overlap among the concurrent sessions at the meeting. As I am sure you will appreciate, it is quite an undertaking to create a meeting program without overlapping sessions in any given topical area. Because changes to the time or day of any sessions would have a ripple effect throughout the program, we can not consider any change requests related to the date and time of sessions. We appreciate your understanding.

Researchers and clinicians may be employed, affiliated with, or have financial interest in commercial entities that may have a relevant bearing on the subject matter of an abstract/case presentation. The prospective audience must be made aware of the affiliation/financial interest by an acknowledgment in the Final Program, as well as acknowledgment in writing on posters, and in the beginning of slide presentations. If there is nothing to disclose, that must be reported by including "no relationships reported."

Presentations regarding commercial products must focus on basic or applied science and not on the product or on the commercial aspects of the discovery. In addition, the format of the presentation must permit full discussion of the scientific validity and/or therapeutic benefits and risk of the discovery. The intent of this policy is not to prevent a speaker from making a presentation, but to identify any potential conflict of interest so that the listeners may form their own judgments about the presentation. If any disclosures were provided at the time of submission, that disclosure will be noted in the Final Program. Failure to comply with the published disclosure policy could result in exclusion from the program for two years.

If you did provide a disclosure at the time of submission, you will see it just below this paragraph. If you have nothing to disclose and indicated that at submission, it will say "None" and no further action is required. If the area below is blank, then you did not provide a disclosure at the time of submission. If you do have information to disclose that is not below, please be sure to contact Danielle Apostolidis at ddavis@acsm.org so that it can be included in the Final Program. Also, as indicated above, please be sure to include this disclosure on your slides/poster presentation.

C.G. Vann: None.

Photography Policy

Photography and videotaping are not allowed in any scientific or clinical session. Please refrain from taking photos or video during any session.

Registration Details

The Program Committee encourages all speakers to pre-register for the meeting by April 19, 2018. (NOTE: should you pre-register by March 15, you can take advantage of the first early bird price break.) Pre-registering for the meeting allows ACSM the opportunity to ensure all speakers have registered for the meeting and gives you the advantage of avoiding long lines in the registration area. To register online or to access the printable pdf registration form, [Click here](#).

Per ACSM policy, ALL presenters are required to register and pay the registration fee for the conference. Failure to register, including paying the fee, may result in a penalty preventing you from presenting at future Annual Meetings. Failure to register and pay the fee may also result in you being invoiced the registration fee along with a late penalty fee.

Travel

For travel and housing information, please [Click here](#).

Online Program Planner

The online program planner allows you to search the entire meeting's educational content using various search functions so that you can build an itinerary in advance and get a sneak peek of the meeting programming including speakers, titles, dates and times of presentations before the meeting. The online program planner will be available soon on the Annual Meeting website: <http://www.acsmannualmeeting.org>.

Thank you for your contribution to the program - we look forward to your presentation.

We encourage you to celebrate your presentation acceptance by letting your friends and family know about this accomplishment. To find text and graphics that you are encouraged to add to your email signature block and post on Instagram, Facebook, LinkedIn and Twitter, [Click here](#).

Sincerely,

2018 ACSM Program Committee

Annual Meeting, World Congress on Exercise is Medicine®, and World Congress on the Basic Science of Muscle Hypertrophy and Atrophy
