Mon 8/15/2022 8:55 PM

To: Deja Trammell <dlt0032@auburn.edu>

CAUTION: Email Originated Outside of Auburn.

August 15, 2022

Dear Deja Trammell,

We are pleased to inform you that your proposal “Evaluating a STEM-based Preschool” has been accepted for presentation at the 30th Annual CREATE Conference in Asheville, North Carolina, on October 10-11, 2022. Please forward this email to your co-presenter(s), if applicable.

The **doctoral student poster session** is an excellent way for early career researchers to present at CREATE and receive feedback from consortium members. CREATE is the place where you can talk directly to leading scholars. Often our [Millman Award Recipients](#) peruse the doctoral student poster sessions offering feedback.

During the doctoral student poster session, early career researchers have the opportunity to present work, receive beneficial feedback, and be considered for the CREATE Achilles-Harper-Swenson Emerging Researcher Award. The CREATE Achilles-Harper-Swenson Emerging Researcher Award was created in 2013 by the CREATE Board of Directors to honor three educational researchers who profoundly influenced the field. This award is given at our annual CREATE conference and includes a monetary award.

Presenters and co-presenters please note:

- For inclusion in the program, each presenter and co-presenter(s) must [register for the conference](#) by September 9th
- The conference hotel is the Asheville Renaissance Hotel, 31 Woodfin Street, Asheville, NC 28801, and room(s) need to be reserved by September 19th.
 - [Click here for how to reserve a room.](#)
- Additional information is found on the [CREATE website](#).

Information about Doctoral Student Poster Presentations:

- Doctoral student poster presentations are a featured event at the CREATE Conference. The session will be held on Monday, October 10, 2022, in the late afternoon and early evening. Presenters stand with posters, discuss the work, and answer questions about the research during this time.
- These presentations are interactive rather than lecture style. CREATE board members, past presidents, and other scholars usually mingle and visit each poster to discuss research with presenters.
- You need to print and bring your poster for the presentation. We will provide easels to display the posters.
 - arrive early to set up
 - posters for CREATE are 3' X 4'
- Find more information on creating posters at NYU libraries <https://goo.gl/whK6Cn>.

We look forward to hearing from you soon. Feel free to contact the CREATE Board of Directors if you have any questions about the 2022 CREATE conference.

Sincerely,
CREATE Administration on behalf of the Board of Directors
