Dear Evelyn Hunter,

Congratulations! We are pleased to inform you that after a highly selective anonymous review process, your proposal, "**Perspectives of Women of Color (WOC) in Leadership: When Leadership & Identity Intersect**" has been accepted for a roundtable presentation in the Division 35 program in the 2018 APA Convention in San Francisco.

Roundtable sessions are 50 minutes long. Typically, the format includes a brief presentation of your topic (including relevant materials) followed by an interactive discussion about the topic you are presenting on. Additionally, there will be other presenters conducting their sessions at different tables in the room.

You will receive a scheduling card from APA with information about the time, location, and final format of your presentation. Your presentation will be listed in the official convention program with the titles, name(s) and institutional affiliation(s) of the author(s).

Only the first author of each session is receiving this email and will receive a schedule card directly from the APA Convention Office. All first authors are asked to pass along the good news to their co-presenters, and to inform them of the time and location of their presentations when that information is received. All participants (members and nonmembers) are required to register for the convention.

Finally, we would like to remind you to please indicate on your convention registration form that Division 35 is your primary division.

Thank you again for choosing Division 35 for your proposal. We look forward to seeing you at San Francisco,

Sincerely,

Program Chairs Trio: Khanh T. Dinh (khanh_dinh@uml.edu), Louise Douce (louisedouce.1@gmail.com), and Linh Luu (lluu1@memphis.edu)
