

# Connecting Students to the Community with Culturally Relevant Mathematical Modeling Tasks

Thu, 10/26: 2:30 PM - 3:30 PM

183

Session

60 Minutes

Marriott

Room: Monument

## Description

Mathematical modeling (MM) is an engaging way for students to explore connections to the real world. Combining culturally relevant tasks with MM can give students the opportunity to further understand their community, culture, and lives. This presentation will feature different approaches to implementing culturally relevant modeling tasks.

## Lead Speaker

*Kathryn Early*, Auburn University

## Co-Speaker(s)

*Elizabeth K Barlow*, Auburn University

*Ronnie Hall*, Chambers County Schools - Valley High School

## Audience

10 to 12

## Session Content Level

Intermediate

## Topics

Creating Inclusive, Engaging, and Rigorous Mathematics for All
