NOTIFY YOUR COAUTHORS

Any co-presenters are copied on this email. **Please remind them to make sure the information is correct in their UCEA profile to ensure an accurate convention program.** If there are any corrections that need to be made to your title or list of co-presenters, please update All Academic by August 6.

SESSION FORMATS

The UCEA Convention offers several session types to feature high quality research and scholarly work. Each of these session types involves different expectations about the mode of presentation.

- In-person papers, roundtables, and Ignite presentations have been placed into a session with others presenting similar topics or in interdisciplinary sessions.

- Virtual papers, roundtables and Ignite presentations have also been placed into sessions and will take place asynchronously before the convention or synchronously during the convention.

- More information about a new approach to virtual papers will be communicated in the coming weeks.

The program schedule, which will include information on the date, time, and location of your session, will be available in late August or early September.

Important Note: A screen and LCD projector will be provided in each room for papers and Ignite! presentations, but not for roundtables. You are responsible for bringing the necessary adapter for your laptop to connect to the LCD projector (HDMI).

UPLOADING YOUR FINAL WORK

More information about uploading your final paper will be communicated in September. Plan on having your final paper/presentation ready to share by November 1. Sharing your paper/presentation is a professional courtesy and contributes to the quality of your session as well as the overall Convention.

KEEPING TIME

Since the conference seeks to provide an opportunity for both presentation and discussion, formal presentation of each paper will be limited to approximately 12 minutes and presentation of each IGNITE! Session will be limited to no more than 5 minutes.
