Dear Margaret Taylor,

Your SACES 2018 conference session, has been scheduled as follows:

Session ID: 093

50 minute poster session

10/13/2018 08:00 AM (Eastern Time (US & Canada)), Palisades Foyer - Posters

Based on information provided in the program proposal, your session will appear in the conference program as follows:

Invisible Wounds: Preventing Vicarious Trauma in Practicing Counselors

Counselors are taught to place themselves in the client's position to better understand their feelings and thoughts. Consequently, hearing extreme details of human distress can cause trauma to counselors, resulting in vicarious trauma. It's essential counselor educators identify measures that will lessen the effects of vicarious trauma in counselors. This presentation will provide information on techniques in supervision that are associated with lessening the effects of vicarious trauma.

Please read the above carefully. If you used special characters or exceeded character allotments, it is possible that your title, abstract, or presenter information truncated when you submitted the proposal.
