

**[EXT] Submission Status: 2022 AIAA SciTech Forum (3604734)**

2022 AIAA SciTech Forum <onbehalf@abstractcentral.com>

Fri 17/09/2021 13:14

To: Syed Hassan Raza Shah <szs0196@auburn.edu>; Emma Crawson <ekc0032@auburn.edu>

**CAUTION: Email Originated Outside of Auburn.**

Friday, 17-Sep-2021

On behalf of the forum Technical Program Committee, it is my pleasure to notify you that your unclassified submission:

Title: Visualization of juncture flow of a surface-mounted cylinder with convex and concave fairings at low Reynolds numbers

Author(s): Syed Hassan Shah(1); Emma Crawson(1)

Author Affiliation(s): 1. Auburn University, Auburn, AL, United States.

Control ID#: 3604734

Presentation Type: Technical Paper (Work in Progress)

Session: FD-51, Vortex Dynamics II, January 5, 2022 from 2:00 PM to 3:40 PM, (individual presentation time subject to change)

Session Type: in-Person

Presentation Duration: 20 minutes (reserve the last 5-10 minutes for questions and answers)

Manuscript & Presentation Slides Upload Access: Emma Crawson only (presenting author, as designated in this submission)

Title/Author List Update Access: Syed Hassan Shah only (original submission/control ID submitter)

has been accepted for presentation at the 2022 AIAA SciTech Forum.

You have been assigned to an in-person session. The technical program committee tried to accommodate all presenter preferred session types (in-person or virtual), but was not able to meet every request. AIAA will accommodate all requests to move from an in-person to a virtual session, and will try to accommodate requests to move from a virtual to an in-person session. If you need to switch your session type, please let me know no later than 17 November. I will work with your technical discipline chair to find the best possible session for your presentation, but all sessions have limited presentation slots so you may have to be assigned to a session with presentations from other topics.

The detailed program is available on the forum website, <https://www.aiaa.org/SciTech/program>.

We invite you to present your work at the forum, which will take place in San Diego, California, 3-7 Jan 22. The forum name and control ID number are provided for your reference and should be included on all correspondence. Do not include this information on your final manuscript.

Slide submission is required for all presenters, both those in virtual and in-person sessions. AIAA is trying to provide greater exposure for all of our authors and their works by providing an opportunity to contextualize their work through these video presentations for audiences unable to attend AIAA events in person. This also allows all attendees of all types access to all presentations.

Final Manuscript and Slides Submission: Final manuscripts and presentation slides will be submitted

electronically to AIAA not later than 2000hrs/8pm Eastern Time 2 Dec 21. This deadline is a hard deadline so please plan accordingly. If participating in a student paper competition, you may have an earlier deadline., Please follow the instructions provided to you by the competition chair. The presenting author, Emma Crawson, will receive an email on or about 1 Oct with submission instructions. The substance of your final paper must conform to this accepted submission. Requests for any modifications are discouraged, but if needed must be made to your technical discipline chair prior to the submission deadline. After manuscripts are available online, in the proceedings, they cannot be replaced with a revised file. Updates can be noted, but the original file cannot be replaced so please allow adequate time to thoroughly proof your manuscript before the manuscript deadline, 2000hrs/8pm Eastern Time 2 Dec 21. For detailed information, please go to <https://arc.aiaa.org/page/crossmark>.

**No Paper, No Podium; No Podium No Paper Policies:** This forum has "No Paper, No Podium; No Podium, No Paper" policies which means that authors of unsubmitted papers and presentation slides will not be permitted to present at the forum, and submitted presentations that have not been presented will be withdrawn. Presenters must be authors of the presentation, and must be physically in the session room while presenting their papers. These policies are intended to eliminate no-shows, to improve the quality of the conference for all participants, and to ensure that the published proceedings accurately represent the presentations made at a conference.

**Title/Author List/Presenter Bio Updates (optional):** The person who made this submission, Syed Hassan Shah, has access to update the title, author list and the presenter biography. This "Open Edit" period begins now and ends with the manuscript deadline, 2000hrs/8pm Eastern Time 2 Dec 21. To make edits, the submitter, Syed Hassan Shah, must return to the ScholarOne submission site by going to <https://www.aiaa.org/SciTech> > Manage Submissions > Submission and follow the posted instructions. Please note that the title and author list as they appear in the ScholarOne submission module is what will be displayed in the program and the proceedings.

**Review Feedback:** Reviewer comments are provided by forum Technical Discipline Chairs at their discretion. Go to <https://www.aiaa.org/SciTech/presentations-papers/call-for-papers> to determine whom to contact. Your submission was reviewed in Fluid Dynamics: Vortex Dynamics.

**Registration Questions:** All attendees are required to register for the forum. Registration is/will be available on the forum website, <https://www.aiaa.org/SciTech> soon. You will be notified when it does. Address all registration questions to [SciTechAIAA@maritz.com](mailto:SciTechAIAA@maritz.com).

**Withdrawal:** To withdraw your presentation, email [withdraw@aiaa.org](mailto:withdraw@aiaa.org) with the forum name, the control ID number, and your assigned session. All withdrawals will be confirmed by email.

**Author Resources:** FAQs, templates, and other resources are available at <https://www.aiaa.org/SciTech/presentations-papers/technical-presenter-resources>.

**Visa for Travel:** If you plan to attend this forum and require a visa for travel, it is incumbent upon you to apply for your visa with the embassy or consulate of the country where the event is being held. Please allow ample processing time. To avoid bureaucratic problems, AIAA strongly suggests that you submit your formal application to the authorities of the country where the event is being held for a minimum of 120 days in advance of the date of anticipated travel. If you need an invitation letter, please go to <https://www.aiaa.org/SciTech/travel/visas>.

This forum is organized by AIAA, the world's largest professional society devoted to the progress of engineering and science in aviation, space, and defense. AIAA's mission is to advance the arts, sciences, and technology of aeronautics and astronautics, and to promote the professionalism of those engaged in these pursuits.

This letter of invitation is not a commitment on the part of AIAA to provide financial support or to contact embassy officials on behalf of the forum participant.

Again, congratulations on your accepted submission. We are pleased that you will be participating in this event as a speaker/attendee and look forward to working with you.

Ann Ames  
Manager, Technical Program, AIAA
