**Presentation type:** 90-minute poster as a part of the research carousel.  
**Presentation Title:**  
“Illicit Drug Use and Sex: What Culturally Competent Counselors Need to Know About Chemsex”

**Presentation Summary (250 words or less):**

“Chemsex” is a term used to describe willful sex under the influence of psychoactive substances, mostly among men who have sex with men, yet this phenomenon has also started to gain popularity within the straight community.
