Congratulations! We are pleased to inform you that your poster has been selected for presentation in the Society for the Psychological Study of Culture, Ethnicity and Race (Division 45) programming for the 2021 meeting of the APA taking place on-line this year. If applicable, please share the good news with your co-authors.

We received an abundance of impressive proposals making the selection process very difficult. Your proposal helps insure that we will have a very dynamic program. Poster selections are based on the recommendation of anonymous reviewers. Some reviewers provide longer and more detailed comments than do others, and not all reviewers include comments for authors with their ratings.

Additionally, we know you may have questions about recording and uploading your presentation. APA's goal is to make the process as easy as possible and they will be sharing all the information you will need, including short training videos, the first week of May. If you have not heard from the Convention Office by that time, please contact them at [convention@apa.org](mailto:convention@apa.org).

By participating in Division 45's program at the APA Convention, you agree that you are presenting your own intellectual property, and/or that you have given appropriate credit to others' work from which you have drawn your ideas, teaching practices, and scholarship.

We look forward to your poster, and encourage you to support other Division 45 programming. We also hope you will list Division 45 as your primary division affiliation when you register for and attend the 2021 convention. This will allow us to maximize our number of programming hours in the future. Again, congratulations, we are excited to have you participate in this years on-line convention.

Sincerely,

Drs. Annel Cordero & Liza Hita  
APA Division 45 Program Co-Chairs
