7. **Course Requirements/Evaluation:**

- A. **Program Model and Visitation Review.** Investigate an actual workplace training, literacy/basic skills and/or or professional skill development education program. This will include visiting a workplace site, interviewing principals involved, and developing a descriptive and evaluative portfolio of the program. Instructions for developing the review will be distributed in class. Please be prepared to design and deliver a presentation describing the workplace education program. Provide all class participants with an outline and an Information Sheet of the program model.

**OR**

- B. **Presentation on specific chapter section/topic in detail** – Present a seminar/lecture on a workforce education topic from a textbook or recognized author/expert researcher on the subject. Key areas to include in the presentation are the following:

- Introduction: What is the chapter about, what will students learn and/or what are the chapter goals? Why is this topic important in Workforce Education?
- Activities and methods are added to the presentation and relate to the principles of adult learning (not lecture only)
- The presentation appeals to visual, auditory, and kinesthetic learners
- The presentation possibly includes exercises to practice any new skills that are being taught
- Time spent on practice and feedback
- Incorporates prior learning or experience related to workforce education
- Additional information from outside resources
- Conclusion and/or Summary
- Provide Documentation of References

**RECORDED - Both of the assignments (either Program Model or the Presentation)** will be recorded in Panopto and posted to the course for other students to view.

The recording presentation should be a minimum of 30 minutes. Presentation handouts will be provided to each class member and the instructor prior to the start of class.

Visual aids (PowerPoint slides, handouts, etc.) will be instructor reviewed and approved a minimum of one week prior to the scheduled presentation.

As this is an online course, students will be required to record their presentations using lecture capture software. Additional information and instructions will be provided to the student during the first week of class.

Student presentations will be graded by both the instructor and his/her peers.

**\* NOTE: The presentation (PowerPoint/Handouts/Agenda) is due to the instructor a minimum of one week prior to scheduled class delivery.**

- C. **Book Review Assignment.** Book reviews typically evaluate recently-written works. They offer a brief description of the text's key points and often provide a short appraisal of the strengths and weaknesses of the work.

This is not a Book Report. Book reports commonly describe what happens in a work; their focus is primarily on giving an account of the major plot, characters, and/or main idea of the work. A book review gives readers a brief review about the content, whether or not the reviewer enjoyed it, an evaluation of the merits of the book toward the key topic, and details on purchasing the book.

- D. **Resource Sharing.** Each participant will examine and present an appropriate workforce or professional development education resource (e.g., website, ASTD products; trainer's manual; diagnostic or evaluation instrument, etc.).
- E. **Group Moderation of Discussion Forum.** You will lead (moderate) one weekly discussion by developing a question related to the readings assigned for that week. As the moderator, you will question, promote dialogue and summarize the group discussion at the end of the week. The role of the moderator is to promote thinking, and challenge your fellow classmates to think, consider alternative viewpoints and to develop new knowledge through thinking and constructing.
- F. **Current Event** – Choose a key idea from the class to research in terms of a current event. It is very important for people to know and understand the events that are happening across the globe related to workforce education and policy. You can find a current event either online or another source (media site, opinion piece, etc.).

Write at least a one page summary on a key topic from a lecture related to a current event. You are to include the following criteria in your assignment:

1. Topic - what is the key topic on workforce education?
2. List the Source (APA format)
3. Summary - briefly, and in your own words, summarize the content of the event
4. Reaction -
  - Take a position on the issue - how do you feel about this event?
  - How does this event affect you?
  - How does this event impact the world?
5. Post the summary and the source in the Discussion Area of Canvas.

This is not a critique of whether the source or event is “good or bad.” This assignment is a reasoned opinion of the issue presented and to get you to explore your attitudes/thoughts/beliefs on various topics in the current world. Your opinions are not cast in stone, nor need they be, but you should make a commitment on the issue. Your opinion should be thought out using the present information and your personal views.

- G. **Weekly Discussions/Other Activities.** Class participation is essential to the success of this course. Therefore, online class discussions are required. Participation on the discussion board is a requirement for this course through a variety of assignments. Absences and lack of participation not due to sickness will be given consideration only if discussed with the instructor in advance of the absence and with proper documentation. Each student is expected to participate in most class discussions throughout the week. Discussions will be graded based upon the quantity and quality of the discussions posted as determined by the instructor.
