**Course Description:**

Reading, applying, and conducting research are critical components of many counseling and education careers. All of these tasks require an understanding of the scientific research process, basic research methods and designs, and the conventions of scholarly writing. In this course, you will develop a working knowledge of these aspects of research through the course readings, classroom instruction, in-class and at-home activities, and individual research projects. A major focus of the class will be to gain the knowledge, understanding, and application skills needed to inform counseling practice.

**Course Objectives:**

Upon completion of this course, the student will be able to:

- Gain an understanding of different approaches to research
- Identify research-based literature
- Evaluate the quality of existing literature, including the review of the literature, research purpose, methods employed, results, and discussion sections
- Evaluate literature in relation to informing practice
- Design appropriate research

**Course Requirements:**

- Attend all class sessions and participate in class discussions and activities
- Complete all assignments

**Grading and Evaluation Procedures:**

**Class Policy Statements**

- ***Email and Communication***

- All communication through emails needs to be via Auburn Tiger Email system. In other words, you need to use your university email address to send me emails, and I will do the same. Emails will be responded within 48 hours excludes weekends and holidays.
- All PPTs and announcements will be posted in the Canvas. You are responsible to check the Canvas before you come to the class.
- All assignments need to be uploaded in the Canvas. I will grade your assignments in the Canvas. You can check your grade for each assignments in the Canvas as well. However, I keep your official grades in my Excel file.
- If you need individual help, you can reach me during the office hour, email, or make an appointment.

- ***Class Attendance***

Points are not attached to attendance directly. However, excellent class attendance is expected. If you need to be absent for school or work-related requirements, illness, or an emergency, you are allowed to make up points for no more than two classes. Students are responsible for initiating arrangements for missed work.

- ***Electronic Device Policy***

Cell phones should be turned off or to vibrate during class. Cell phone texting and/or reading are not permitted in class. Laptops and tablets in class could only be used for the purpose of the class.

- **Assignment Policy**

- Due to the potential incompatibility of word processing programs and formats, and the potential for the transmission of viruses, absolutely no work for the course will be accepted as an Email and/or as an Email attachment, or on a disk etc. All graded work must be uploaded in the Canvas.
- All work submitted for the course must be typed.

- **Late Assignments Policy**

- Assignments turned in late will receive a 2% reduction in earned points per day. The only exception will be in the case of emergency.
- Except for work requiring calculations, all work must be typed or it will not be graded. Late penalty will be applied to work completed in writing and then turned in late in typed format for a grade.
- Assignments more than 2 weeks overdue will not be accepted.

- **Incompletes and Withdrawals**

Grades associated with incomplete course work or withdrawal from class will be assigned in strict conformity to University policy (see Auburn University Bulletin). If you wish to drop this course you may do so by the 10th class day with no grade assignment. From the 10th class day to mid-quarter a W (withdrawn-passing) grade will be recorded in your transcripts. After this period withdrawal from the course will only be granted under unusual circumstances and must be approved by the Dean of the College of Education.

Note that the incomplete grade (IN) policy is in effect. The new policy requires that students complete a form requesting that an IN grade be assigned. If this form is not completed and given to the instructor of the class, a grade will be assigned with a score of zero (0) for work that has not been completed and turned in by the time the instructor reports grades. To be eligible for a grade of IN, the student must have completed and have passed more than half of all class assignments/exams for semester.

- **Academic Misconduct**

- **Academic Honesty**

The Department of EFLT recognizes university policy regarding academic misconduct. Violations include, but are not limited to: plagiarism, unauthorized assistance during examinations, submitting another's work product as your own, using another's words as your own without appropriate citation, sharing unauthorized materials with another that contain questions or answers to examinations, altering or attempting to alter assigned grades. In accordance with University policy regarding academic misconduct, students may be subject to several sanctions upon violations of the Student Academic Honesty Code. See the Tiger Cub publication for the current year for specifics regarding academic misconduct as well as student's rights and responsibilities associated with the Code.
