COURSE DESCRIPTION: This course offers an opportunity for receiving information and acquiring the skills necessary for academic and career planning. Processes of self-assessment and self-exploration are critical components of this course that contribute to your making educated academic and career decisions. In addition to traditional classroom activities, the content is presented in an experiential manner through interactive discussions, individual projects, and contact with campus resources.

OBJECTIVES:

1. Students will explore interests, values, and personality in relation to academic and life planning.
2. Students will be able to articulate how the skills acquired through participation in intercollegiate athletics may translate to success in the classroom.
3. Students will research a selected major and related career.
4. Students will increase their knowledge of the skills and experiences that are attractive to future employers.
5. Students will learn to utilize websites and other resources to begin making educated career choices.

ASSIGNMENTS & READINGS: To make this class meaningful and useful, you must keep up with the readings and assignments as outlined in this syllabus. You will get out of this course exactly what you put into it; i.e., if you endeavor to learn about yourself, your unique interests and strengths, and the myriad opportunities available to you as a student-athlete at Auburn, you will be on track toward a successful academic career. The readings and assignments are designed intentionally to help you along that path; they are not designed to be “busy work.”

Please note that pop quizzes may be given on assigned reading material, and unannounced checks on the completion of assignments may be performed during the semester.

TEXTBOOK:

1. Getting from College to Career: 90 Things to do Before You Join the Real World, Revised Edition, by Lindsey Pollak.

2. Make a Difference: The Challenge of Excellence: Volume 1 of the Eagle Leadership Series for College Students, by Larry Little.
