Last call!

2025 will be a year to remember, if not for other reasons, as the year in which Ed Silver officially retires from the academy, after a lifetime of contributions to mathematics education research and practice and university life more generally. His colleagues, collaborators, and mentees in the field of mathematics education will celebrate this occasion with a conference in Ed's honor, which will be held at the Marsal School of Education in Ann Arbor on May 29-30, 2025, with a possibility for hybrid participation. We are hereby issuing a call for people to indicate their intention to attend, speak at the event, or contribute memorabilia.

Please use the form <https://forms.gle/4UfquDuiBXvsqXGN8> to indicate your intentions.

Thank you to the many of you who already registered. If you will want to participate in any way please indicate it now as we are finalizing the program. Note that you could send something to be read on your behalf too.

Pat Herbst

Professor of Mathematics Education
Editor in Chief, Journal for Research in Mathematics Education
Marsal Family School of Education | University of Michigan
610 East University Avenue | Room 4117
