REFLEX® Herbicide

EPA Reg. No. 10182-83

DIRECTIONS FOR USE

Pine Seedling Nurseries

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PESTS: Yellow nutsedge (*Cyperus esculentus* L.)

DOSAGE AND METHOD OF APPLICATION: For suppression up to control of yellow nutsedge apply REFLEX at 1½ pints per acre per season. Make application immediately after seeding as a preemergence spray in 30 to 40 gallons of water. Apply mulch for seed cover. For best results irrigate with ½ inch of water immediately after application.

LOCATION: REFLEX may be applied to the following Pine Seedling Nurseries:

Louisiana Pacific Peach Springs Nursery	Winnsboro, Texas
International Paper, Texas Super Tree Nursery	Bullard, Texas
Temple-Inland Nursery	Jasper, Texas
Champion International Nursery	Livingston, Texas
Texas Forest Service, Indian Mound Nursery	Alto, Texas
Riverwood International Nursery	Bivins, Texas

Do not apply this product through any type of irrigation system.

To avoid crop injury refer to the federal EPA label for rotational crop restrictions information.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This labeling must be in the possession of the user at the time of pesticide application.

IMPORTANT: Read the Entire Directions for Use and the Conditions of Sale and Warranty before using this product.
