

# Where do I find.....?

Ryan Nadel

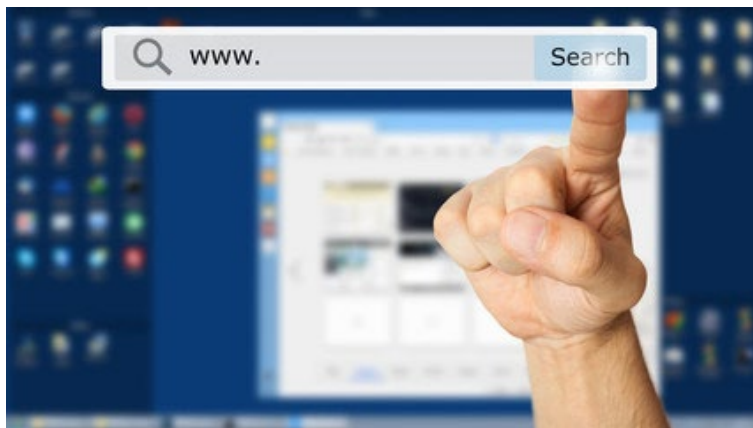

SCHOOL OF FORESTRY  
AND WILDLIFE SCIENCES

# The problem.....

- A question comes up at the nursery such as “What can I use to control\_\_\_\_\_?” or Where can I find the Research Report that discussed Proline?”.
- What do you do????

Approach # 1 – Internet search

Approach # 2 – contact the Nursery Coop

## Bareroot Seedling Top Clipping

Top clipping is a method of controlling seedling height in the nursery bed to produce well-balanced seedlings that are better prepared to cope with stressful growing conditions.

## Contact Meeting - FY 2017 | Myrtle Beach, SC

### Agenda

Soil Fumigant Usage/Propylene Oxide Studies - Scott Enebak

Longleaf and Shortleaf Pine Orchard Status - Barbara Crane

Science and Usage of Slow Release Fertilizers in Seedling Production Systems - Kyle Creamer

Update on Herbicide Trials - Nina Payne

Seedling Physiology - Lisa Samuelson

1MCP Ethylene Inhibitor: Storage and Survival - Ryan Nadel

Lime and Sulphur in Seedling Nutrition - David South

Unmanned Aerial Flights - Tim McDonald

Shortleaf Pine Container - Ryan Nadel

New Legislation and Pesticide News - Ryan Nadel

Weed Control Strategies - Nina Payne

Diagnostics and Nursery News - Ryan Nadel

*Last Updated: February 6, 2018*

### Tree Planters' Notes (1950 - present)

This publication is dedicated to technology transfer and publication of research information relating to nursery production and outplanting of trees, shrubs, and native plants for reforestation, conservation, and restoration.

[You can subscribe to the Tree Planters' Notes \(TPN\) mailing list here.](#) If you are an existing subscriber, you can also edit your subscription information.

### Forest Nursery Notes (1993 - present)

Forest Nursery Notes (FNN) is a nursery news and literature service that is distributed free of charge to over 1,200 cooperators in the United States, Canada, and other foreign countries.

[You can subscribe to the Forest Nursery Notes \(FNN\) mailing list here.](#) If you are an existing subscriber, you can also edit your subscription information.

### National Nursery Proceedings (1949 - present)

Search by keyword or browse by year and event. Either way, you can access hundreds of proceedings articles from 1949 to present.

# Let's try to find something....

A screenshot of the Auburn University Southern Forest Nursery Management Cooperative website. The header features the Auburn University logo and the text "Southern Forest Nursery Management Cooperative". Below the header is a navigation bar with links: "About the SFNMC", "Accomplishments", "Meet the Staff", "Job Announcements", and "MEMBERS ONLY". The main content area has a left sidebar with a list of topics: "Cultural Practices", "Disease & Weed Control", "Improved Seedlings", "Labels", "Extension Forestry", "Fumigants", "Mycorrhiza", "Nursery Museum", "Nutrients & Irrigation", "Publications & Documents", "Soil Information", "State Pesticide Boards", "Testing Services", "Transplanting Tips", and "Weather Information". The main content area displays a photograph of a Longleaf Pine seedling with the text "Longleaf Pine" and "Longleaf pine seedling exiting the 'grass stage'".

Last Updated: January 25, 2018

A banner for the Reforestation, Nurseries, & Genetics Resources (RNGR) website. The banner features a large green leaf on the left and a small seedling on the right. The text "REFORESTATION, NURSERIES, & GENETICS RESOURCES" is at the top, followed by "RNGR" in large letters. Below the main text is a navigation bar with links: "HOME", "PUBLICATIONS", "RESOURCES", "SEED LAB", "TRIBAL", "TROPICAL", "ABOUT", and "FORUM". A Facebook logo is visible on the right side of the banner.
