

OPT EXTENSION

You must remember to stay in touch with your immigration advisor the entire time that you are on OPT Extension. Notify your advisor when you receive your new EAD card.

Every 6 months, Sevis will require that your advisor get in touch with you to verify your home address and your employer. Be sure that your advisor knows how to get in touch with you for this, preferably an email address that you check regularly.

Be sure to keep your advisor notified of any changes in your home address or your employer.

I, _____ have read the above and agree to keep my advisor notified in a timely manner:
