# THE AUBURN CREED

I BELIEVE THAT THIS IS A PRACTICAL WORLD AND THAT I CAN COUNT ONLY ON WHAT I EARN. THEREFORE, I BELIEVE IN WORK, HARD WORK. I BELIEVE IN EDUCATION, WHICH GIVES ME THE KNOWLEDGE TO WORK WISELY AND TRAINS MY MIND AND MY HANDS TO WORK SKILLFULLY. I BELIEVE IN HONESTY AND TRUTHFULNESS, WITHOUT WHICH I CANNOT WIN THE RESPECT AND CONFIDENCE OF MY FELLOW MEN. I BELIEVE IN A SOUND MIND, IN A SOUND BODY AND A SPIRIT THAT IS NOT AFRAID AND IN CLEAN SPORTS TO DEVELOP THESE QUALITIES. I BELIEVE IN OBEDIENCE TO LAW BECAUSE IT PROTECTS THE RIGHTS OF ALL. I BELIEVE IN THE HUMAN TOUCH, WHICH CULTIVATES SYMPATHY WITH MY FELLOW MEN AND MUTUAL HELPFULNESS AND BRINGS HAPPINESS FOR ALL. I BELIEVE IN MY COUNTRY, BECAUSE IT IS A LAND OF FREEDOM AND BECAUSE IT IS MY OWN HOME, AND THAT I CAN BEST SERVE THAT COUNTRY BY "DOING JUSTLY, LOVING MERCY, AND WALKING HUMBLY WITH MY GOD." AND BECAUSE AUBURN MEN AND WOMEN BELIEVE IN THESE THINGS, I BELIEVE IN AUBURN AND LOVE IT.

#### THE PLEDGE OF ALLEGIANCE

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands: one Nation under God, indivisible, With Liberty and Justice for all.

#### THE STAR SPANGLED BANNER

O say can you see,
by the dawn's early light,
What so proudly we hailed
at the twilight's last gleaming?
Whose broad stripes and bright stars,
through the perilous fight,
O'er the ramparts we watched,
were so gallantly streaming?
And the rocket's red glare,
the bombs bursting in air,
Gave proof through the night
that our Flag was still there.
O say does that Star-spangled Banner yet wave
O'er the land of the free and the home of
the brave?

#### **ALMA MATER**

On the rolling plains of Dixie 'Neath its sun kissed sky Proudly stands our Alma Mater Banners high.

To thy name we'll sing thy praise From hearts that love so true And pledge to thee our loyalty The ages through.

We hail thee, Auburn, and we vow To work for thy just fame, And hold in memory as we do now Thy cherished name.

# AUBURN UNIVERSITY

uburn University has a proud and dynamic 147-year history. The institution was chartered on February 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William J. Samford, later Governor of Alabama.

The college building, then named Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Gov. Samford. Today Samford Hall serves as the University's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the university ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located—Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The Deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once was proposed for naming the town. The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the university's sixth president said, "The Alabama Polytechnic Institute, a high

sounding phrase, is fit for legal document; and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960 Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Twelve schools and colleges advance the University's outstanding programs of teaching, research and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a university reorganization created the College of Liberal Arts and the College of Sciences and Mathematics from the former school of Arts and Sciences (1872), as well as portions of the School of Agriculture and Biological Sciences and the School of Architecture and Fine Arts (both subsequently renamed).

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 375 buildings on 1,840 acres. The Alabama Agricultural Experiment Station conducts crop, animal and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main campus enrollment is 23,276, with about 1,250 faculty.

In 1967, the State Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was name Auburn University at Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. Money was raised by the Montgomery community to purchase a 500-acre site seven miles east of the city off I-85 to build. The new campus was built and occupied in 1971. Currently its enrollment stands at approximately 5,000.

# AUBURN UNIVERSITY PRESIDENT

S ince being appointed president of Auburn University on June 3, 2002, William F. Walker has set about to rejuvenate the "Auburn Spirit" by improving communications with students, faculty, staff, alumni, and the Board of Trustees.

Despite the economic shockwaves being felt by higher education across the nation, Auburn has remained on firm ground financially through prudent and innovative management guided by Walker.

Understanding that there are major financial obstacles in the future that will likely be caused by declining state support, one of Walker's first acts as president was to establish a campus commission to shape Auburn's future.

The president's charge to the commission was to determine what kind of university Auburn wanted to be in the future, how it would reach it goals and how it would finance that vision.

For that reason, Walker sought and won approval from the Board of Trustees for the early phase of a record \$500 million university fund raising campaign.

Walker has also become a leading figure in the campaign for statewide tax and constitutional reform that would benefit education at all levels in Alabama. And he advocates the position that Alabama's research universities should be economic generators for the state.

Walker is committed to a campus environment marked by mutual respect and hospitality, where students, faculty and staff strive to acknowledge each other's contributions and benefit from America's ever growing diversity.

Walker's ascension to the AU presidency actually had its roots in 1988 when he and his wife, Myrna, decided to leave prestigious and private Rice University in the big city environment of Houston for a land grant university in a small Alabama town.

William F. Walker, 65, came to Auburn as dean of the College of Engineering, and 11 years later was promoted to provost. He was named interim president on Feb. 12, 2001, and elevated to president by unanimous vote of the AU Board of Trustees on June 3, 2002.

Born Dec. 1, 1937, in Sherman, Texas, Walker's family lived in several North Texas towns before settling in Arlington, Texas, where his father was an office manager for Lone Star Gas Co., and his mother, a graduate of North Texas State University and Texas Women's University, was a school teacher.

Walker decided after high school to pursue his interest in engineering at the University of Texas at Austin, where he earned his bachelor's and master's degrees in aerospace engineering.

After graduation, he went to work in Dallas as an engineer for an aircraft company, working on the design of

Dr. William F. Walker

the heat shields for re-entry vehicles in the space program.

He then went on to earn his Ph.D. in mechanical engineering from Oklahoma State University. From there, he joined the faculty at Rice, which he describes as "one of the most fortunate things that ever happened to me."

At the Houston school, Walker conducted research on computational fluid dynamics What happens when a missile encounters a nuclear blast. But he was forced to change his research in 1972 literally because of a lack of computer power. So he moved into the area of biomedical research, working at the Baylor College of Medicine's Texas Medical Center with famed heart surgeon Michael DeBakey.

Walker concentrated in the area of the design and manufacture of the pump and power for artificial hearts, which were in vogue in the 1970s.

Although leaving friends and community behind at Rice was "really hard," Walker says the move to Auburn "was probably one of the best decisions I've ever made."

"Auburn is a good institution," he says. "It's far better than people here realize and people around the country recognize.

"I'm a great believer in the total being greater than the sum of the parts. If we begin to get that kind of teamwork, people feeding off one another's energies, the organization will begin to function well. My philosophy of management is you surround yourself with good people then out of the way and let them do their job.

"Auburn has a great future. I think Auburn University has the capability of becoming one of the leading land grant universities in the country."

# **GREETINGS FROM THE PRESIDENT**

o the graduates of the Class of 2003, to your families and friends, I speak for everyone at Auburn University in expressing heartfelt congratulations to each of you on a tremendous achievement that has taken years to fulfill. Today marks a special time in each of your lives, as well as for those that invested so much in your dreams and desires to reach great heights of fulfillment. It is a great victory for you, as well as for those who supported you personally and financially throughout these challenging years.

Commencement signals a closure to your days at Auburn University. However, a commencement is also a beginning. It is a beginning of new hopes, new dreams, new ambitions and great expectations. When you came to Auburn, you set goals for yourself in order to one day go from here and become a leader in this great nation of ours. Auburn is the place from which you now depart like ripples expanding in a body of water, each ripple a crest of teachers, engineers, artists, scientists, and professionals in numerous academic areas. Throughout your career you will continue to learn within your fields of study, as you give of yourselves.

Today is a celebration of you. You have earned this celebration. From the words of George Petrie, author of The Auburn Creed, "I believe this is a practical world and that I can count only on what I earn. Therefore, I believe in work, hard work." You have worked hard and you have earned this celebration.

I hope that all of you will look back on your days at Auburn University with fondness and know that wherever you go, a part of Auburn goes with you. And know also that you will always be greeted warmly upon your return.

Good Luck and War Eagle!

William Fhldke-

# **ACADEMIC REGALIA**

Academic regalia worn by faculty during commencement ceremonies is based on attire used in 12th and 13th century universities. Academic dress and accourtements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols there has been little change in the symbolism of pattern and color since the Middle Ages. In 1895 an Intercollegiate Commission in the United States adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style and materials of gowns. In addition, the colors which were to represent the different fields of learning were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the vast majority of colleges and universities in America, including Auburn University.

#### **GOWNS**

Gowns traditionally are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

#### HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, maroon for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear their hoods in the processional and throughout the ceremony. Recipients of the Doctoral degree are individually hooded during the commencement ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

#### CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

# THE AUBURN CREED

I BELIEVE THAT THIS IS A PRACTICAL WORLD AND THAT I CAN COUNT ONLY ON WHAT I EARN. THEREFORE, I BELIEVE IN WORK, HARD WORK. I BELIEVE IN EDUCATION, WHICH GIVES ME THE knowledge to work wisely and trains my MIND AND MY HANDS TO WORK SKILLFULLY. I BELIEVE IN HONESTY AND TRUTHFULNESS, WITHOUT WHICH I CANNOT WIN THE RESPECT AND CONFIDENCE OF MY FELLOW MEN. I BELIEVE IN A SOUND MIND, IN A SOUND BODY AND A SPIRIT THAT IS NOT AFRAID AND IN CLEAN SPORTS TO DEVELOP THESE QUALITIES. I BELIEVE IN OBEDIENCE TO LAW BECAUSE IT PROTECTS THE RIGHTS OF ALL. I BELIEVE IN THE HUMAN TOUCH, WHICH CULTIVATES SYMPATHY WITH MY FELLOW MEN AND MUTUAL HELPFULNESS AND BRINGS HAPPINESS FOR ALL. I BELIEVE IN MY COUNTRY, BECAUSE IT IS A LAND OF FREEDOM AND BECAUSE IT IS MY OWN HOME, AND THAT I CAN BEST SERVE THAT COUNTRY BY "DOING JUSTLY, LOVING MERCY, AND WALKING HUMBLY WITH MY GOD." AND BECAUSE AUBURN MEN AND WOMEN BELIEVE IN THESE THINGS, I BELIEVE IN AUBURN AND LOVE IT.

#### THE PLEDGE OF ALLEGIANCE

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands: one Nation under God, indivisible, With Liberty and Justice for all.

#### THE STAR SPANGLED BANNER

O say can you see,
by the dawn's early light,
What so proudly we hailed
at the twilight's last gleaming?
Whose broad stripes and bright stars,
through the perilous fight,
O'er the ramparts we watched,
were so gallantly streaming?
And the rocket's red glare,
the bombs bursting in air,
Gave proof through the night
that our Flag was still there.
O say does that Star-spangled Banner yet wave
O'er the land of the free and the home of
the brave?

#### **ALMA MATER**

On the rolling plains of Dixie 'Neath its sun kissed sky Proudly stands our Alma Mater Banners high.

To thy name we'll sing thy praise From hearts that love so true And pledge to thee our loyalty The ages through.

We hail thee, Auburn, and we vow To work for thy just fame, And hold in memory as we do now Thy cherished name.

# **AUBURN UNIVERSITY**

uburn University has a proud and dynamic 147-year history. The institution was chartered on February 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William J. Samford, later governor of Alabama.

The college building, then named Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Gov. Samford. Today Samford Hall serves as Auburn University's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the university ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located—Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The Deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once was proposed for naming the town. The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the university's sixth president said, "The Alabama Polytechnic Institute, a high

sounding phrase, is fit for legal document; and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960 Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Twelve schools and colleges advance the University's outstanding programs of teaching, research and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a university reorganization created the College of Liberal Arts and the College of Sciences and Mathematics from the former school of Arts and Sciences (1872), as well as portions of the School of Agriculture and Biological Sciences and the School of Architecture and Fine Arts (both subsequently renamed).

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 375 buildings on 1,840 acres. The Alabama Agricultural Experiment Station conducts crop, animal and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main campus enrollment is 23,276, with about 1,250 faculty.

In 1967, the State Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was name Auburn University at Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. Money was raised by the Montgomery community to purchase a 500-acre site seven miles east of the city off I-85 to build. The new campus was built and occupied in 1971. Currently its enrollment stands at approximately 5,000.

# AUBURN UNIVERSITY PRESIDENT

S ince being appointed president of Auburn University on June 3, 2002, William F. Walker has set about to rejuvenate the "Auburn Spirit" by improving communications with students, faculty, staff, alumni, and the Board of Trustees.

Despite the economic shockwaves being felt by higher education across the nation, Auburn has remained on firm ground financially through prudent and innovative management guided by Walker.

Understanding that there are major financial obstacles in the future that will likely be caused by declining state support, one of Walker's first acts as president was to establish a campus commission to shape Auburn's future.

The president's charge to the commission was to determine what kind of university Auburn wanted to be in the future, how it would reach it goals and how it would finance that vision.

For that reason, Walker sought and won approval from the Board of Trustees for the early phase of a record \$500 million university fundraising campaign.

Walker has also become a leading figure in the campaign for statewide tax and constitutional reform that would benefit education at all levels in Alabama. And he advocates the position that Alabama's research universities should be economic generators for the state.

Walker is committed to a campus environment marked by mutual respect and hospitality, where students, faculty and staff strive to acknowledge each other's contributions and benefit from America's ever growing diversity.

Walker's ascension to the AU presidency actually had its roots in 1988 when he and his wife, Myrna, decided to leave prestigious and private Rice University in the big city environment of Houston for a land grant university in a small Alabama town.

William F. Walker, 65, came to Auburn as dean of the College of Engineering, and 11 years later was promoted to provost. He was named interim president on Feb. 12, 2001, and elevated to president by unanimous vote of the AU Board of Trustees on June 3, 2002.

Born Dec. 1, 1937, in Sherman, Texas, Walker's family lived in several North Texas towns before settling in Arlington, Texas, where his father was an office manager for Lone Star Gas Co., and his mother, a graduate of North Texas State University and Texas Women's University, was a school teacher.

Walker decided after high school to pursue his interest in engineering at the University of Texas at Austin, where he earned his bachelor's and master's degrees in aerospace engineering.

After graduation, he went to work in Dallas as an engineer for an aircraft company, working on the design of

Dr. William F. Walker

the heat shields for re-entry vehicles in the space program.

He then went on to earn his Ph.D. in mechanical engineering from Oklahoma State University. From there, he joined the faculty at Rice, which he describes as "one of the most fortunate things that ever happened to me."

At the Houston school, Walker conducted research on computational fluid dynamics — What happens when a missile encounters a nuclear blast. But he was forced to change his research in 1972 literally because of a lack of computer power. So he moved into the area of biomedical research, working at the Baylor College of Medicine's Texas Medical Center with famed heart surgeon Michael DeBakey.

Walker concentrated in the area of the design and manufacture of the pump and power for artificial hearts, which were in vogue in the 1970s.

Although leaving friends and community behind at Rice was "really hard," Walker says the move to Auburn "was probably one of the best decisions I've ever made."

"Auburn is a good institution," he says. "It's far better than people here realize and people around the country recognize.

"I'm a great believer in the total being greater than the sum of the parts. If we begin to get that kind of teamwork, people feeding off one another's energies, the organization will begin to function well. My philosophy of management is you surround yourself with good people then out of the way and let them do their job.

"Auburn has a great future. I think Auburn University has the capability of becoming one of the leading land grant universities in the country."

# **GREETINGS FROM THE PRESIDENT**

o the graduates of the Class of 2003, to your families and friends, I speak for everyone at Auburn University in expressing heartfelt congratulations to each of you on a tremendous achievement that has taken years to fulfill. Today marks a special time in each of your lives, as well as for those that invested so much in your dreams and desires to reach great heights of fulfillment. It is a great victory for you, as well as for those who supported you personally and financially throughout these challenging years.

Commencement signals a closure to your days at Auburn University. However, a commencement is also a beginning. It is a beginning of new hopes, new dreams, new ambitions and great expectations. When you came to Auburn, you set goals for yourself in order to one day go from here and become a leader in this great nation of ours. Auburn is the place from which you now depart like ripples expanding in a body of water, each ripple a crest of teachers, engineers, artists, scientists, and professionals in numerous academic areas. Throughout your career you will continue to learn within your fields of study, as you give of yourselves.

Today is a celebration of you. You have earned this celebration. From the words of George Petrie, author of The Auburn Creed, "I believe this is a practical world and that I can count only on what I earn. Therefore, I believe in work, hard work." You have worked hard and you have earned this celebration.

I hope that all of you will look back on your days at Auburn University with fondness and know that wherever you go, a part of Auburn goes with you. And know also that you will always be greeted warmly upon your return.

Good Luck and War Eagle!

William that

William F. Walker

#### COMMENCEMENT MARSHAL

#### STUDENT GRADUATION MARSHALS

The undergraduate and graduate deans select as marshals students who have distinguished themselves by service to their school.

They are identified by the orange and blue honor cords.

Jennifer D. Edwards	
	College of Architecture, Design and Construction
Jonathan E. Tate	
Duriel T. Barlow	
Angela Makungu	Samuel Ginn College of Engineering
Perry A. Butler	School of Forestry and Wildlife Sciences
Janelle L. Seigart	College of Human Sciences
R Parrish King	College of Sciences and Mathematics
Caroline K. L. Munoz	Graduate School

#### COMMENCEMENT PLANNING COMMITTEE

Dorothy H. Cavender, Chair	Associate Dean, College of Human Sciences
Linan (Morris) Bian	
Dale A. Coleman	
	Associate Professor, Communication/Journalism
John T. Fletcher, Jr.	
Sidney N. James	Assistant Professor (Retired), Samuel Ginn College of Engineering
Judith Kamnikar	Professor, School of Business, AUM
J. Ford Laumer, Jr.	Associate Professor, Marketing
John F Pritchett	Interim Provost
Thomas R Sanders	Librarian III, Ralph Brown Draughon Library
Thomas W Sparrow IV	Director, Athletic Facilities
Pamela V Illrich	Associate Professor, Consumer Affairs
Patricia F Wingfield	Coordinator, Special Events, President's Office
Amol Thote	Graduate Student
Sara Flurry	
Sara Pluffy	

#### NON-MEMBER SUPPORT STAFF

C. Doyle Bickers	Director, Admissions and Records Office
Amy J. Krietemeyer	Registration Advisor, Admissions and Records Office
Fran W. Davidson	Executive Secretary, President's Office
Ellen C McManus	Office Administration Associate, College of Human Sciences

# **ORDER OF EXERCISES**

Processional:			
Fanfare and Processional	nencement Wind Ensemble		
Pomp and Circumstance	Johnnie B. Vinson		
Orb and Sceptre	Professor of Music		
Composers: Edward Elgar and William Walton	Auburn University		
(Audience will stand for Processional)			
Color Guard	Air Force ROTC		
Color Guard	Army ROTC		
	Naval ROTC		
*Pledge of Allegiance	William F. Walker		
	President		
*National Anthem	Thomas R Smith		
*National Anthem	Professor of Music		
	Auburn University		
Greetings from the Auburn Alumni Association	Jan B. Lisenby		
BERT CONTROL WITHOUT AND	Ozark, Alabama		
	Pohort E. Lowder		
Greetings from the Board of Trustees	Montgomery, Alabama		
	Wionigomery, Madama		
CONFERRING OF DEGREES			
William F. Walker, B.S., M.S., Ph.D.  President			
Auburn University			
Remarks	President Walker		
* Alma Mater			
(Audience will remain standing until faculty has retired from the platform.)			
Recessional:

#### COLLEGE OF VETERINARY MEDICINE

#### **Doctor of Veterinary Medicine**

retchen Dawn West Au
----------------------

ACADEMIC REGALIA

cademic regalia worn by faculty during commencement ceremonies is based on attire used in 12th and 13th century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols there has been little change in the symbolism of pattern and color since the Middle Ages. In 1895 an Intercollegiate Commission in the United States adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style and materials of gowns. In addition, the colors which were to represent the different fields of learning were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the vast majority of colleges and universities in America, including Auburn University.

#### GOWNS

Gowns traditionally are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

#### HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, maroon for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear their hoods in the processional and throughout the ceremony. Recipients of the Doctoral degree are individually hooded during the commencement ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

#### CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

# Gonfalons

nother symbol used in commencement ceremonies is the gonfalon. The gonfalon is a flag or banner that hangs from a crosspiece or frame. It originated in the medieval states of Italy as an ensign of state or office. The gonfalon is used in the Auburn University ceremony to designate the various colleges and schools of the institution. In the commencement ceremony, the gonfalon for each college is carried by the Student Marshal for that college or school. In mostly keeping with the prescribed colors for various academic disciplines, the background color of each gonfalon denotes the discipline.

# THE AUBURN CREED

ABOTHER STOCK SHOULD INCOME THE PROPERTY OF TH

I BELIEVE THAT THIS IS A PRACTICAL WORLD AND THAT I CAN COUNT ONLY ON WHAT I EARN. THEREFORE, I BELIEVE IN WORK, HARD WORK. I BELIEVE IN EDUCATION, WHICH GIVES ME THE KNOWLEDGE TO WORK WISELY AND TRAINS MY MIND AND MY HANDS TO WORK SKILLFULLY. I BELIEVE IN HONESTY AND TRUTHFULNESS, WITHOUT WHICH I CANNOT WIN THE RESPECT AND CONFIDENCE OF MY FELLOW MEN. I BELIEVE IN A SOUND MIND, IN A SOUND BODY AND A SPIRIT THAT IS NOT AFRAID AND IN CLEAN SPORTS TO DEVELOP THESE QUALITIES. I BELIEVE IN OBEDIENCE TO LAW BECAUSE IT PROTECTS THE RIGHTS OF ALL. I BELIEVE IN THE HUMAN TOUCH, WHICH CULTIVATES SYMPATHY WITH MY FELLOW MEN AND MUTUAL HELPFULNESS AND BRINGS HAPPINESS FOR ALL. I BELIEVE IN MY COUNTRY, BECAUSE IT IS A LAND OF FREEDOM AND BECAUSE IT IS MY OWN HOME, AND THAT I CAN BEST SERVE THAT COUNTRY BY "DOING JUSTLY, LOVING MERCY, AND WALKING HUMBLY WITH MY GOD." AND BECAUSE AUBURN MEN AND WOMEN BELIEVE IN THESE THINGS, I BELIEVE IN AUBURN AND LOVE IT.

## AUBURN UNIVERSITY - A BRIEF HISTORY

uburn University has a proud and dynamic 147-year history. The institution was chartered on February 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and stu-

dents resigned to enlist for the duration of the Civil War. Among those joining was William J. Samford, later governor of Alabama.

The college building, then named Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by

Samford Hall, named after Gov. Samford. Today Samford Hall serves as the University's administrative headquarters.

AUBURN UNIVERSITY

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the university ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located- Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The Deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once was proposed for naming the town. The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

> As Charles C. Thach, the university's sixth president said, "The Alabama Polytechnic Institute, a high sounding phrase, is fit for legal document; and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960 Alabama Polytechnic

Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Twelve schools and colleges advance the University's outstanding programs of teaching, research and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a university reorganization created the College of Liberal Arts and

continued on page 32

## AUBURN UNIVERSITY'S PRESIDENT

ince being appointed president of Auburn University on June 3, 2002, William F. Walker has set about to rejuvenate the "Auburn Spirit" by improving communications with students, faculty, staff, alumni, and the Board of Trustees.

Despite the economic shockwaves being felt by higher education across the nation, Auburn has remained on firm ground financially through prudent and innovative management guided by Walker.

Understanding that there are major financial obstacles in the future that will likely be caused by declining state support, one of Walker's first acts as president was to establish a campus commission to shape Auburn's future.

The president's charge to the commission was to determine what kind of university Auburn wanted to be in the future, how it would reach it goals and how it would finance that vision.

For that reason, Walker sought and won approval from the Board of Trustees for the early phase of a record \$500 million university fund raising campaign.

Walker has also become a leading figure in the campaign for statewide tax and constitutional reform that would benefit education at all levels in Alabama. And he advocates the position that Alabama's research universities should be economic generators for the state.

Walker is committed to a campus environment marked by mutual respect and hospitality, where students, faculty and staff strive to acknowledge each other's contributions and benefit from America's ever growing diversity.

Walker's ascension to the AU presidency actually had its roots in 1988 when he and his wife, Myrna, decided to leave prestigious and private Rice University in the big city environment of Houston for a land grant university in a small Alabama town.

William F. Walker, 66, came to Auburn as dean of the College of Engineering, and 11 years later was promoted to provost. He was named interim president on Feb. 12, 2001, and elevated to president by unanimous vote of the AU Board of Trustees on June 3, 2002.

Born Dec. 1, 1937, in Sherman, Texas, Walker's family lived in several North Texas towns before settling in Arlington, Texas, where his father was an office manager for Lone Star Gas Co., and his mother, a graduate of North Texas State University and Texas Women's University, was a school teacher.

William F. Walker

school to pursue his interest in engineering at the University of Texas at Austin, where he earned

After graduation, he went to work in Dallas as an engineer for an aircraft company, working on the design of the heat shields for re-entry vehicles in the space program.

his bachelor's and master's degrees in aerospace engineering.

He then went on to earn his Ph.D. in mechanical engineering from Oklahoma State University. From there, he joined the faculty at Rice, which he describes as "one of the most fortunate things that ever happened to me."

At the Houston school, Walker conducted research on computational fluid dynamics - What happens when a missile encounters a nuclear blast. But he was forced to change his research in 1972 literally because of a lack of computer power. So he moved into the area of biomedical research, working at the Baylor College of Medicine's Texas Medical Center with famed heart surgeon Michael DeBakey.

Walker concentrated in the area of the design and manufacture of the pump and power for artificial hearts, which were in vogue in the 1970s.

Although leaving friends and community behind at Rice was "really hard," Walker says the move to Auburn "was probably one of the best decisions I've ever made."

"Auburn is a good institution," he says. "It's far better than people here realize and people around the country recognize.

"I'm a great believer in the total being greater than the sum of the parts. If we begin to get that kind of teamwork, people

## GREETINGS FROM THE PRESIDENT

O the graduates of the Class of 2003, to your families and friends, I speak for everyone at Auburn University in expressing heartfelt congratulations to each of you on a tremendous achievement that has taken years to fulfill. Today marks a special time in each of your lives, as well as for those that invested so much in your dreams and desires to reach great heights of fulfillment. It is a great victory for you, as well as for those who supported you personally and financially throughout these challenging years.

Commencement signals a closure to your days at Auburn University. However, a commencement is also a beginning. It is a beginning of new hopes, new dreams, new ambitions and great expectations. When you came to Auburn, you set goals for yourself in order to one day go from here and become a leader in this great nation of ours. Auburn is the place from which you now depart like ripples expanding in a body of water, each ripple a crest of teachers, engineers, artists, scientists, and professionals in numerous academic areas. Throughout your career you will continue to learn within your fields of study, as you give of yourselves.

Today is a celebration of you. You have earned this celebration. From the words of George Petrie, author of The Auburn Creed, "I believe this is a practical world and that I can count only on what I earn. Therefore, I believe in work, hard work." You have worked hard and you have earned this celebration.

I hope that all of you will look back on your days at Auburn University with fondness and know that wherever you go, a part of Auburn goes with you. And know also that you will always be greeted warmly upon your return.

Good Luck and War Eagle!

William Flidke

William F. Walker

## ACADEMIC REGALIA

cademic regalia worn by faculty during commencement ceremonies is based on attire used in 12th-and 13th-century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols there has been little change in the symbolism of pattern and color since the Middle Ages. In 1895 an Intercollegiate Commission in the United States adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style and materials of gowns. In addition, the colors which were to represent the different fields of learning were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the vast majority of colleges and universities in America, including Auburn University.

#### Gowns

Gowns traditionally are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

#### Hoods

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, maroon for human sciences, white for liberal arts, golden yellow for sciences

and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear their hoods in the processional and throughout the ceremony. Recipients of the Doctoral degree are individually hooded during the commencement ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

#### CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

#### GONFALONS

Another symbol used in commencement ceremonies is the gonfalon. The gonfalon is a flag or banner that hangs from a crosspiece or frame. It originated in the medieval states of Italy as an ensign of state or office.

The gonfalon is used in the Auburn University ceremony to designate the various colleges and schools of the institution. In the commencement ceremony, the gonfalon for each college is carried by the Student Marshal for that college or school. In mostly keeping with the prescribed colors for various academic disciplines, the background color of each gonfalon denotes the discipline.

## THE PRESIDENT'S MEDALLION

Auburn University Board of Trustees authorized the creation of the President's Medallion on March 15, 1966. The piece is crafted in gold from a design developed by a faculty committee. The face of the medallion depicts varying lengths of rays from a center classic lamp to symbolize the light of knowledge traveling outward. The background for the lamp is dark blue enamel. The blue field is encircled by a quotation from William Butler Yeats, "Truth flourishes where the student's lamp has shone." The seal of Auburn University is engraved

The medallion was introduced at the inauguration of President Harry M. Philpott on May 13, 1966. Dr. Philpott and every president since have worn the medallion at official ceremonies of Auburn University.

## HONORARY DEGREE RECIPIENT

Sciences degree to retired pharmaceutical executive Edward L. Wampold of Atlanta. He will become the 151st person in 147 years to receive an honorary degree from Auburn.

Wampold, a native of Montgomery, twice had his studies at Auburn interrupted by volunteer service in World World II and the Korean war before earning his degree in biological science in 1953. He also did graduate studies at Syracuse University and Columbia University.

After earning his degree from Auburn, Wampold joined Ortho Pharmaceutical Corporation, a division of board of directors.

After retirement from Ortho, he co-founded Biological Cooperation of America, a diagnostic immunohematology compapus since its founding as East Alabama Male College in 1856.

uring today's commencement ceremonies, Auburn ny that grew to become the number two firm in the industry in just University will present an honorary Doctor of two years. In 1985, he retired again and moved to South Florida,

> where he later became president, CEO and a member of the board of directors of Technimed Corporation. Wampold resigned and retired in 1990, returning to Atlanta.

At that time, he became a member of the AU College of Sciences and Mathematics' Advisory Council and a football scholarship donor. A member of the 1856 Society and Life Member of the Auburn Alumni Association, Wampold, has been an active donor for COSAM and athletics and is a leader in the Campaign for Auburn.

Auburn has awarded nearly 200,000 degrees at its main cam-
