BEARD-EAVES-MEMORIAL COLISEUM

THE PLEDGE OF ALLEGIANCE

I PLEDGE ALLEGIANCE TO THE FLAG
OF THE UNITED STATES OF AMERICA,
AND TO THE REPUBLIC FOR WHICH IT STANDS:
ONE NATION UNDER GOD, INDIVISIBLE,
WITH LIBERTY AND JUSTICE FOR ALL.

THE STAR SPANGLED BANNER

O SAY CAN YOU SEE,
BY THE DAWN'S EARLY LIGHT,
WHAT SO PROUDLY WE HAILED
AT THE TWILIGHT'S LAST GLEAMING?
WHOSE BROAD STRIPES AND BRIGHT STARS,
THROUGH THE PERILOUS FIGHT,
O'ER THE RAMPARTS WE WATCHED,
WERE SO GALLANTLY STREAMING?
AND THE ROCKET'S RED GLARE,
THE BOMBS BURSTING IN AIR,
GAVE PROOF THROUGH THE NIGHT
THAT OUR FLAG WAS STILL THERE.
O SAY DOES THAT STAR-SPANGLED BANNER YET WAVE
O'ER THE LAND OF THE FREE
AND THE HOME OF THE BRAVE?

ALMA MATER

ON THE ROLLING PLAINS OF DIXIE
'NEATH THE SUN KISSED SKY
PROUDLY STANDS OUR ALMA MATER
BANNERS HIGH.

TO THY NAME WE'LL SING THY PRAISE
FROM HEARTS THAT LOVE SO TRUE
AND PLEDGE TO THEE OUR LOYALTY
THE AGES THROUGH.

WE HAIL THEE, AUBURN, AND WE VOW
TO WORK FOR THY JUST FAME,
AND HOLD IN MEMORY AS WE DO NOW
THY CHERISHED NAME.

AUBURN UNIVERSITY – A BRIEF HISTORY

Auburn University has a proud and dynamic 151-year history. The institution was chartered on Feb. 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

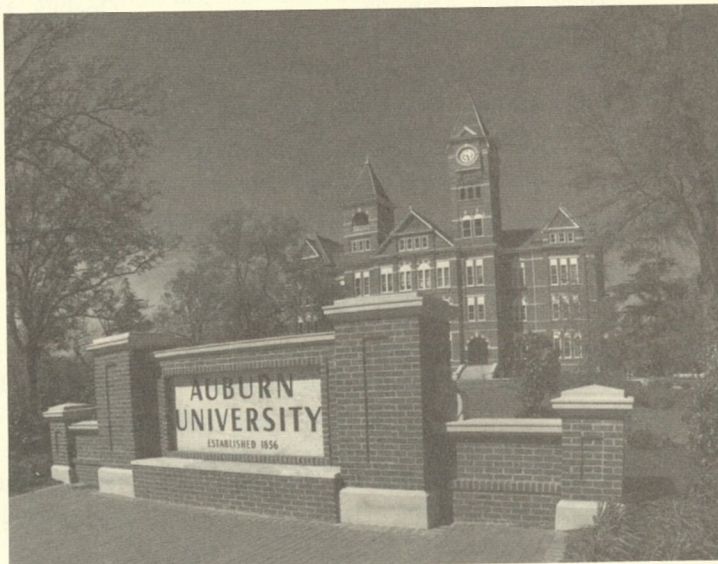

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William Samford, who would become governor of Alabama.

The building, Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Gov.

Samford. Today, Samford Hall serves as the AU's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the University ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located — Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The Deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as

once was proposed for naming the town? The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the University's sixth president said, "The Alabama Polytechnic Institute, a high sounding phrase, is fit for legal document and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The

Legislature agreed, and in 1960 Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Twelve schools and colleges advance the University's outstanding programs of teaching, research, and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design, and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of

ACADEMIC REGALIA

Academic regalia worn by faculty during commencement is based on attire from 12th- and 13th-century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols, little has changed in the symbolism of pattern and color since the Middle Ages. In 1895 an intercollegiate commission in the U.S. adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style, and materials of gowns. In addition, colors, which were to represent the different fields of learning, were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the majority of colleges and universities in America, including Auburn University.

GOWNS

Traditionally, gowns are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, maroon for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear hoods in the processional and throughout the ceremony. Recipients of the doctoral degree are individually hooded during the ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

GONFALONS

Another symbol used in commencement is the gonfalon. The gonfalon is a flag or banner that hangs from a crosspiece or frame. It originated in the medieval states of Italy as an ensign of state or office.

The gonfalon is used in the Auburn University ceremony to designate the various colleges and schools of the institution. In the ceremony, the gonfalon for each college is carried by the student marshal for that college or school. In mostly keeping with the prescribed colors for various academic disciplines, the background color of each gonfalon denotes the discipline.

THE PRESIDENT'S MEDALLION

The Auburn University Board of Trustees authorized the creation of the President's Medallion on March 15, 1966. The piece is crafted in gold from a design developed by a faculty committee. The face of the medallion depicts varying lengths of rays from a classic lamp to symbolize the light of knowledge traveling outward. The background for the lamp is dark blue enamel. The blue field is encircled by a quotation from William Butler Yeats, "Truth flourishes where the student's lamp has shone." The seal of Auburn University is engraved on the back.

The medallion was introduced at the inauguration of President Harry M. Philpott on May 13, 1966. Dr. Philpott and every president since have worn the medallion at official ceremonies of Auburn University.

Brief History, *continued from page 4*

Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a reorganization created the College of Liberal Arts and the College of Sciences and Mathematics from the former School of Arts and Sciences (1872).

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 375 buildings on 1,840 acres. The Alabama Agricultural Experiment Station conducts crop, animal, and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main campus enrollment currently

exceeds 23,000, with more than 1,100 full-time faculty.

In 1967, the Alabama Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was named Auburn University Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. The Montgomery community raised money to purchase a 500-acre site seven miles east of the city near I-85. The new campus was built and occupied in 1971. Currently, its enrollment stands at approximately 5,000.

THE PLEDGE OF ALLEGIANCE

I PLEDGE ALLEGIANCE TO THE FLAG
OF THE UNITED STATES OF AMERICA,
AND TO THE REPUBLIC FOR WHICH IT STANDS:
ONE NATION UNDER GOD, INDIVISIBLE,
WITH LIBERTY AND JUSTICE FOR ALL.

THE STAR SPANGLED BANNER

O SAY CAN YOU SEE,
BY THE DAWN'S EARLY LIGHT,
WHAT SO PROUDLY WE HAILED
AT THE TWILIGHT'S LAST GLEAMING?
WHOSE BROAD STRIPES AND BRIGHT STARS,
THROUGH THE PERILOUS FIGHT,
O'ER THE RAMPARTS WE WATCHED,
WERE SO GALLANTLY STREAMING?
AND THE ROCKET'S RED GLARE,
THE BOMBS BURSTING IN AIR,
GAVE PROOF THROUGH THE NIGHT
THAT OUR FLAG WAS STILL THERE.
O SAY DOES THAT STAR-SPANGLED BANNER YET WAVE
O'ER THE LAND OF THE FREE
AND THE HOME OF THE BRAVE?

ALMA MATER

ON THE ROLLING PLAINS OF DIXIE

PROUDLY STANDS OUR ALMA MATER
BANNERS HIGH.

AND PLEDGE TO THEE OUR LOYALTY

AUBURN UNIVERSITY – A BRIEF HISTORY

Auburn University has a proud and dynamic 151-year history. The institution was chartered on Feb. 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William Samford, who would become governor of Alabama.

The building, Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Gov.

Samford. Today, Samford Hall serves as the AU's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the University ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located — Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The Deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once was proposed for naming the town?

The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the University's sixth president said, "The Alabama Polytechnic Institute, a high sounding phrase, is fit for legal document and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960

Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Twelve schools and colleges advance the University's outstanding programs of teaching, research, and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design, and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. ACADEMIC REGALIA

Academic regalia worn by faculty during commencement is based on attire from 12th- and 13th-century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols, little has changed in the symbolism of pattern and color since the Middle Ages. In 1895 an intercollegiate commission in the U.S. adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style, and materials of gowns. In addition, colors, which were to represent the different fields of learning, were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the majority of colleges and universities in America, including Auburn University.

GOWNS

Traditionally, gowns are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, maroon for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear hoods in the processional and throughout the ceremony. Recipients of the doctoral degree are individually hooded during the ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

GONFALONS

Another symbol used in commencement is the gonfalon. The gonfalon is a flag or banner that hangs from a crosspiece or frame. It originated in the medieval states of Italy as an ensign of state or office.

The gonfalon is used in the Auburn University ceremony to designate the various colleges and schools of the institution. In the ceremony, the gonfalon for each college is carried by the student marshal for that college or school. In mostly keeping with the prescribed colors for various academic disciplines, the background color of each gonfalon denotes the discipline.

THE PRESIDENT'S MEDALLION

The Auburn University Board of Trustees authorized the creation of the President's Medallion on March 15, 1966. The piece is crafted in gold from a design developed by a faculty committee. The face of the medallion depicts varying lengths of rays from a classic lamp to symbolize the light of knowledge traveling outward. The background for the lamp is dark blue enamel. The blue field is encircled by a quotation from William Butler Yeats, "Truth flourishes where the student's lamp has shone." The seal of Auburn University is engraved on the back.

The medallion was introduced at the inauguration of President Harry M. Philpott on May 13, 1966. Dr. Philpott and every president since have worn the medallion at official ceremonies of Auburn University.

Brief History, *continued from page 4*

the College of Liberal Arts and the College of Sciences and Mathematics from the former School of Arts and Sciences (1872).

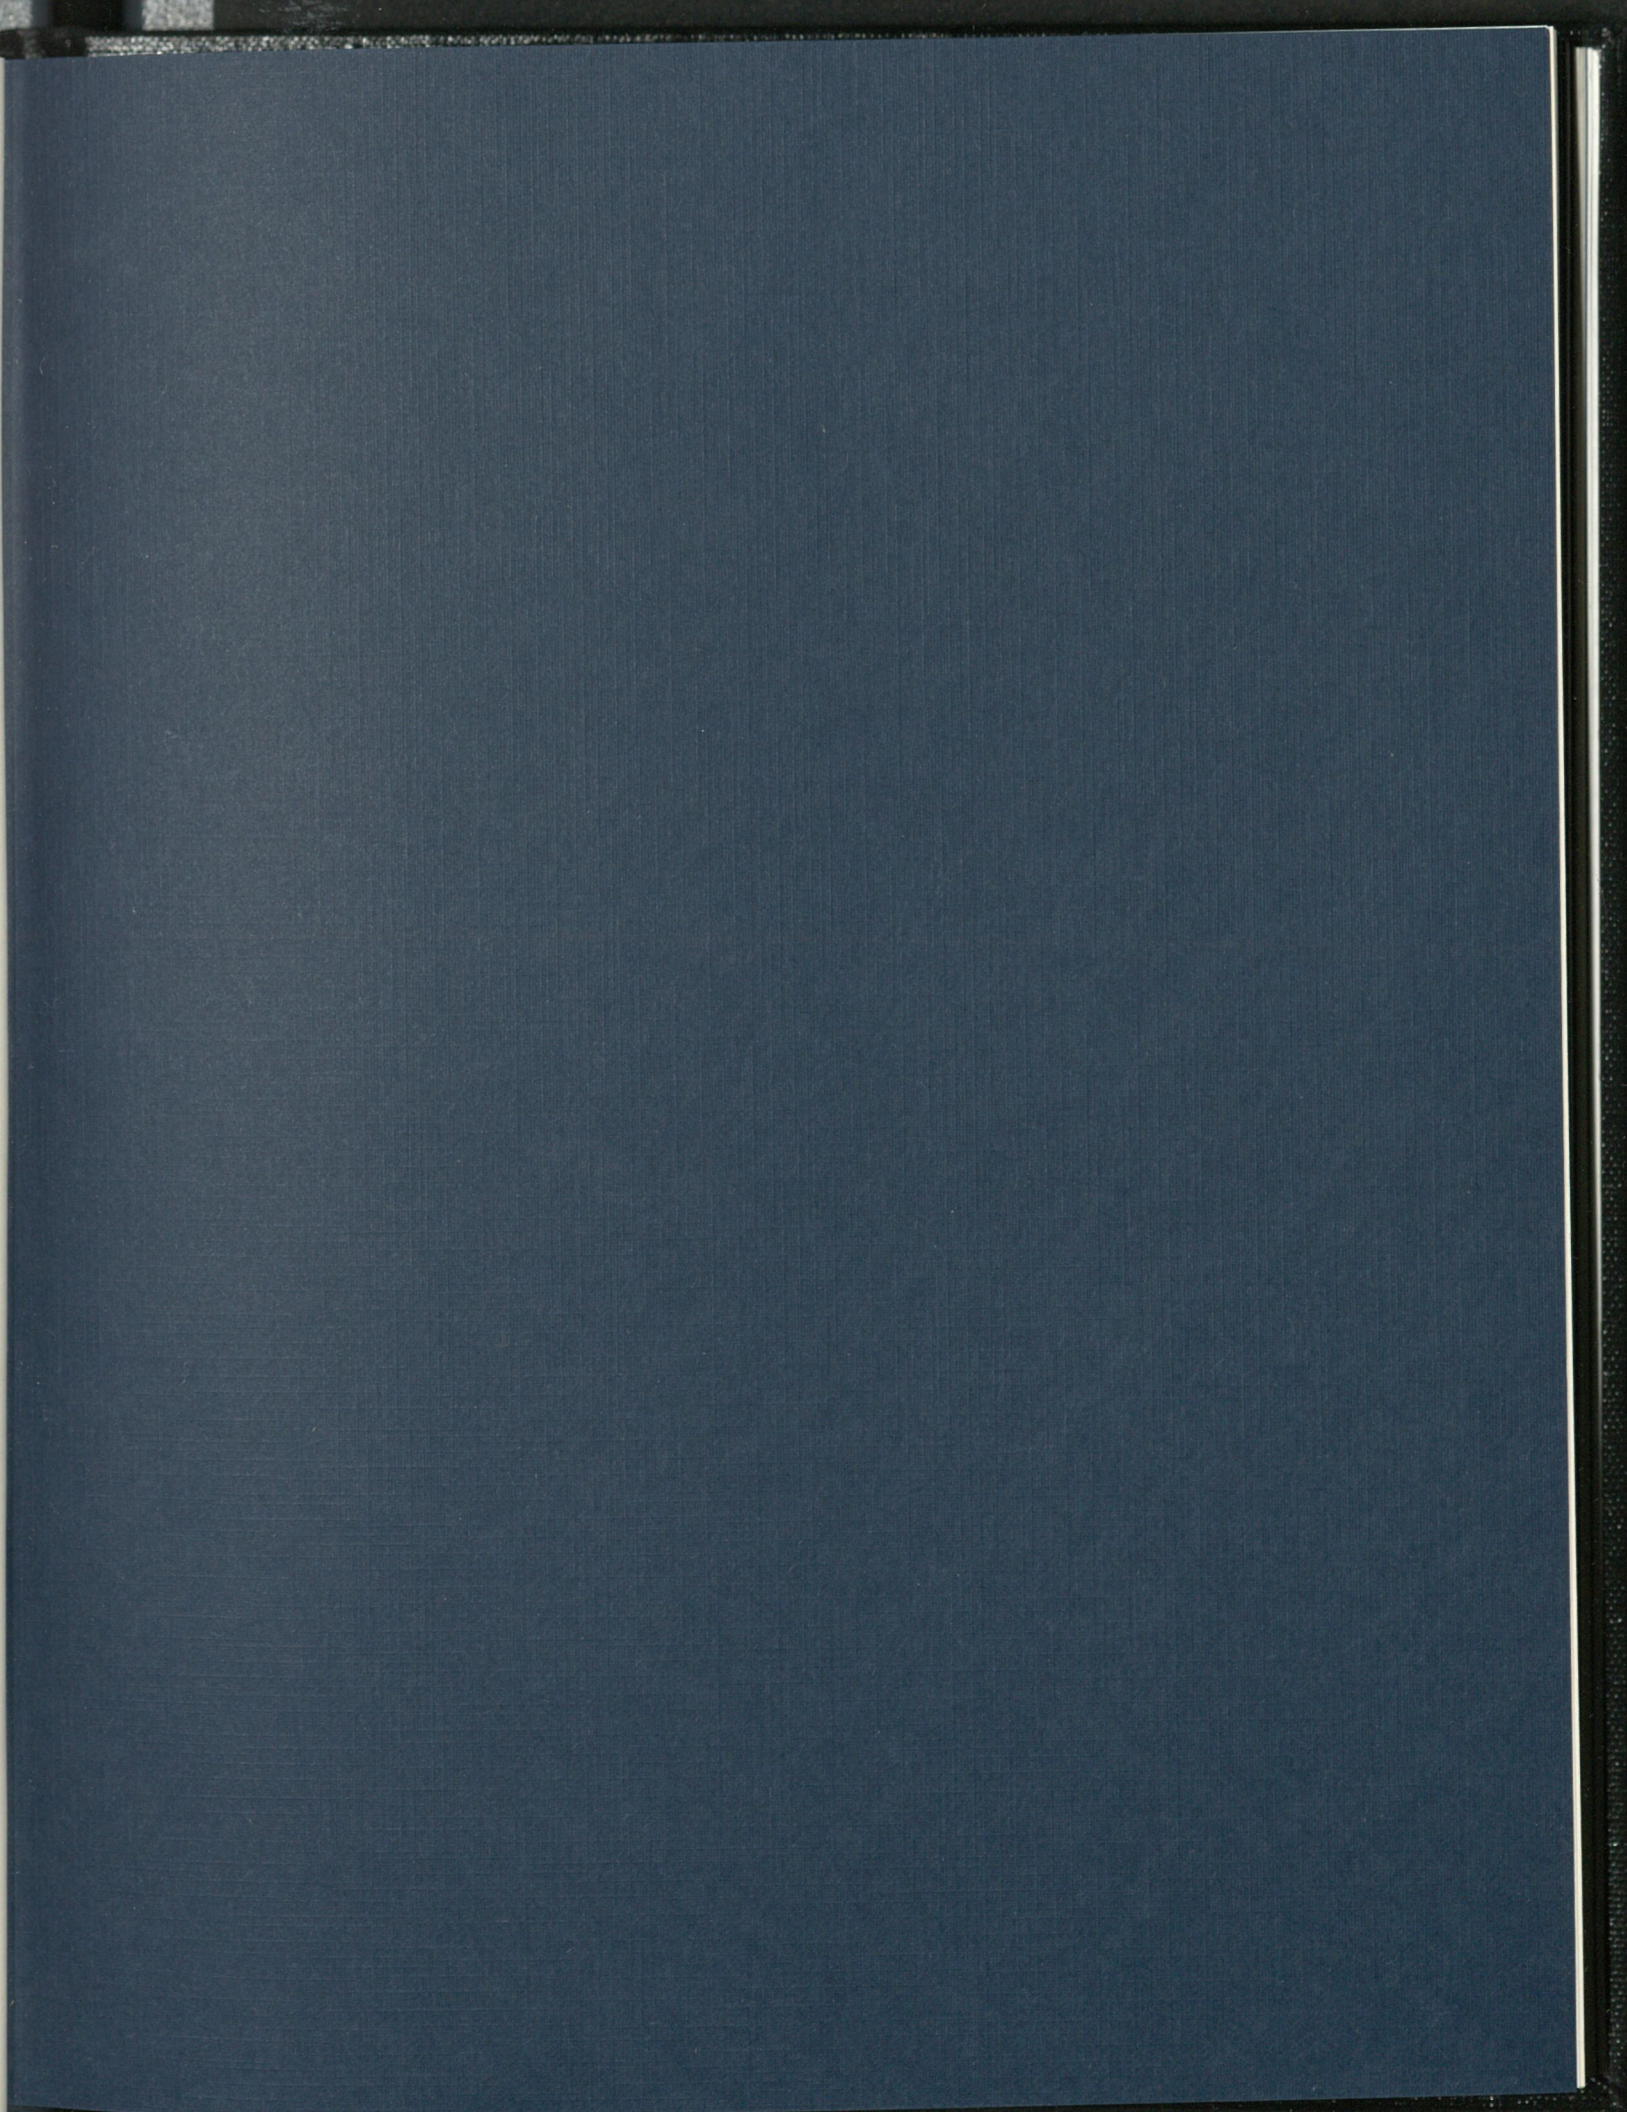

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 89 major buildings on 1,843 acres. The Alabama Agricultural Experiment Station conducts crop, animal, and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main campus enrollment currently exceeds 23,000, with more than 1,100 full-time faculty.

In 1967, the Alabama Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was named Auburn University Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. The Montgomery community raised money to purchase a 500-acre site seven miles east of the city near I-85. The new campus was built and occupied in 1971. Currently, its enrollment stands at approximately 5,000.

THE PLEDGE OF ALLEGIANCE

I PLEDGE ALLEGIANCE TO THE FLAG
OF THE UNITED STATES OF AMERICA,
AND TO THE REPUBLIC FOR WHICH IT STANDS:
ONE NATION UNDER GOD, INDIVISIBLE,
WITH LIBERTY AND JUSTICE FOR ALL.

THE STAR SPANGLED BANNER

O SAY CAN YOU SEE,
BY THE DAWN'S EARLY LIGHT,
WHAT SO PROUDLY WE HAILED
AT THE TWILIGHT'S LAST GLEAMING?
WHOSE BROAD STRIPES AND BRIGHT STARS,
THROUGH THE PERILOUS FIGHT,
O'ER THE RAMPARTS WE WATCHED,
WERE SO GALLANTLY STREAMING?
AND THE ROCKET'S RED GLARE,
THE BOMBS BURSTING IN AIR,
GAVE PROOF THROUGH THE NIGHT
THAT OUR FLAG WAS STILL THERE.
O SAY DOES THAT STAR-SPANGLED BANNER YET WAVE
O'ER THE LAND OF THE FREE
AND THE HOME OF THE BRAVE?

ALMA MATER

ON THE ROLLING PLAINS OF DIXIE
'NEATH THE SUN KISSED SKY
PROUDLY STANDS OUR ALMA MATER
BANNERS HIGH.

TO THY NAME WE'LL SING THY PRAISE
FROM HEARTS THAT LOVE SO TRUE
AND PLEDGE TO THEE OUR LOYALTY
THE AGES THROUGH.

WE HAIL THEE, AUBURN, AND WE VOW
TO WORK FOR THY JUST FAME,
AND HOLD IN MEMORY AS WE DO NOW
THY CHERISHED NAME.

AUBURN UNIVERSITY – A BRIEF HISTORY

Auburn University has a proud and dynamic 151-year history. The institution was chartered on Feb. 1, 1856 as the East Alabama Male College, a private liberal arts school established by Alabama Methodists to foster Christian education.

A single four-story building was completed at a cost of \$111,000 in 1859 with 80 students enrolled and a faculty of five. Five male students were graduated in the first commencement held. When Alabama seceded from the Union, faculty and students resigned to enlist for the duration of the Civil War. Among those joining was William Samford, who would become governor of Alabama.

The building, Old Main, was used as a Confederate hospital from 1864 until classes resumed in 1866. When fire destroyed Old Main in 1887, it was replaced on the same site in 1888 by Samford Hall, named after Gov. Samford. Today, Samford Hall serves as the AU's administrative headquarters.

The college struggled in the shattered Southern economy during the years after the Civil War. It was a ruined economy and those that pledged large sums to the college went bankrupt and could not meet their pledges. The Methodist Church granted the institution to the state in 1872 for use as a land-grant university under the Morrill Act, signed by President Lincoln in 1862. The institution then became the Agricultural and Mechanical College of Alabama, changing from the private liberal arts school to a state-supported college with an emphasis on the new scientific and agricultural programs.

Continuous expansion followed. In 1899, the Alabama Legislature decided a new name was needed to reflect the expanded role of the institution. The college's name was changed to the Alabama Polytechnic Institute.

From the beginning, however, virtually everyone connected with the University ignored official names, preferring always the name selected for the town, founded in 1836, where the institution was located — Auburn. Elizabeth Harper, the daughter-in-law of the settlement's founder, was inspired by a line from Oliver Goldsmith's poem, "The Deserted Village," which reads, "Sweet Auburn, loveliest village of the plain." Would the history of this institution have been the same had it been named Geneva as once

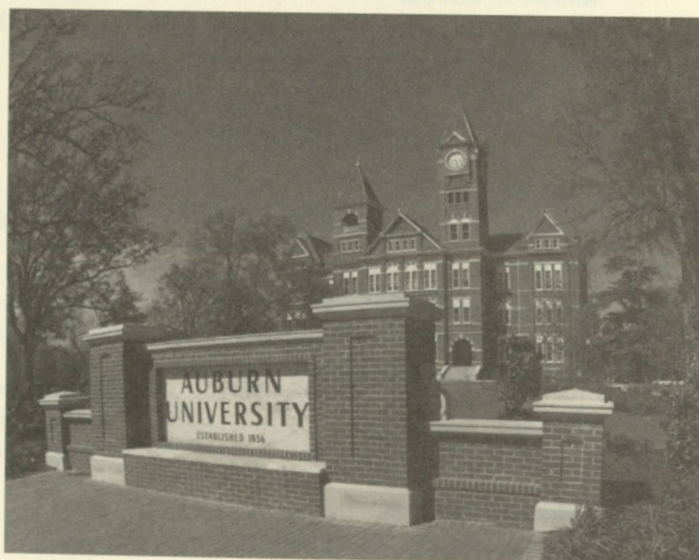

was proposed for naming the town? The story goes that straws were drawn for naming the town Geneva or Auburn. Auburn won out.

As Charles C. Thach, the University's sixth president said, "The Alabama Polytechnic Institute, a high sounding phrase, is fit for legal document and grave legislation, but not to conjure with and not to yell and not to dream with as is "Fair Auburn." The Legislature agreed, and in 1960

Alabama Polytechnic Institute became Auburn University.

Women students were first admitted to Auburn in 1892, making Auburn the oldest four-year coeducational school in Alabama and the second oldest in the Southeast.

Twelve schools and colleges advance the University's outstanding programs of teaching, research, and service. The current colleges and schools and the dates of this original inception are: College of Agriculture, 1872; College of Architecture Design, and Construction, 1907; College of Business, 1967; College of Education, 1915; Samuel Ginn College of Engineering, 1872; School of Forestry and Wildlife Sciences, 1984; College of Human Sciences, 1916; College of Liberal Arts, 1986; School of Nursing, 1979; James Harrison School of Pharmacy, 1885; College of Sciences and Mathematics, 1986; College of Veterinary Medicine, 1907; Graduate School, 1872. In 1986, a reorganization created

ACADEMIC REGALIA

Academic regalia worn by faculty during graduation is based on attire from 12th- and 13th-century universities. Academic dress and accoutrements of this type have been used in the United States since colonial times. To maintain tradition and the conformity of academic symbols, little has changed in the symbolism of pattern and color since the Middle Ages. In 1895 an intercollegiate commission in the U.S. adopted a standardized code for the use of academic gowns, hoods, and caps, which included regulating the cut, style, and materials of gowns. In addition, colors, which were to represent the different fields of learning, were prescribed. Over the years, only minor revisions have been made to the code, which is followed by the majority of colleges and universities in America, including Auburn University.

GOWNS

Traditionally, gowns are all black (Harvard, Princeton, and Yale are exceptions) and are of three styles. The bachelor's gown is a comparatively simple style that falls in straight lines from an elaborate yoke and has pointed sleeves. The master's gown is similar to the bachelor's except for its peculiar arrangement of the long sleeves with square ends that hang below the elbow. The doctor's gown is elaborate, full-cut and flowing, and is distinguished by velvet panels down the front and around the neck and by three velvet bars on the bell-shaped sleeves.

HOODS

Historically, the academic hood was literally a garment to protect the wearer from foul weather. Today, it is the identifying symbol of the degree and the length indicates which degree it represents: three and a half feet for the master's and four feet for the doctoral degree. Hoods are lined with the official color of the college or university conferring the degree. The color of the trimming identifies the major field of learning: maize for agriculture, blue violet for architecture, drab for business, orange for engineering, light blue for education, russet for forestry, maroon for human sciences, white for liberal arts, golden yellow for sciences and math, apricot for nursing, olive green for pharmacy, and gray for veterinary medicine.

The traditional rule for hoods is that a candidate for a degree should not wear the hood of that degree until it is actually conferred. However, at Auburn University, master's degrees are conferred en masse and degree candidates wear hoods in the processional and throughout the ceremony. Recipients of the doctoral degree are individually hooded during the ceremony. These candidates do not wear the hood in the academic processional, but receive the hood when the degree is conferred.

CAPS AND TASSELS

The black mortar board is the cap generally worn with academic regalia. A long tassel is fastened to the middle point on the top of the cap. The tassel is usually the color appropriate to the subject. There is no general rule on the position of the tassel on the mortar board. However, numerous institutions have adopted a practice of requiring candidates for degrees to wear the tassels on the right front side before degrees are conferred and to shift them to the left side when the degrees are awarded to them.

GONFALONS

Another symbol used in graduation is the gonfalon. The gonfalon is a flag or banner that hangs from a crosspiece or frame. It originated in the medieval states of Italy as an ensign of state or office.

The gonfalon is used in the Auburn University ceremony to designate the various colleges and schools of the institution. In the ceremony, the gonfalon for each college is carried by the student marshal for that college or school. In mostly keeping with the prescribed colors for various academic disciplines, the background color of each gonfalon denotes the discipline.

THE PRESIDENT'S MEDALLION

The Auburn University Board of Trustees authorized the creation of the President's Medallion on March 15, 1966.

The piece is crafted in gold from a design developed by a faculty committee. The face of the medallion depicts varying lengths of rays from a classic lamp to symbolize the light of knowledge traveling outward. The background for the lamp is dark blue enamel. The blue field is encircled by a quotation from William Butler Yeats, "Truth flourishes where the student's lamp has shone." The seal of Auburn University is engraved on the back.

The medallion was introduced at the inauguration of President Harry M. Philpott on May 13, 1966. Dr. Philpott and every president since have worn the medallion at official ceremonies of Auburn University.

Brief History, *continued from page 4*

the College of Liberal Arts and the College of Sciences and Mathematics from the former School of Arts and Sciences (1872).

Auburn's greatest growth and development came after World War II. From a campus of 35 buildings in 1946, the university's multi-million dollar physical complex has grown to approximately 89 major buildings on 1,843 acres. The Alabama Agricultural Experiment Station conducts crop, animal, and soil experimentation statewide, and Extension agents are stationed in all 67 Alabama counties. Main campus enrollment currently exceeds 24,000, with more than 1,100 full-time faculty.

In 1967, the Alabama Legislature approved a \$5 million bond issue for the purpose of establishing a four-year university at Montgomery under the supervision and control of the Auburn University Board of Trustees. It was named Auburn University Montgomery. AUM began operation in the former Extension Center of the University of Alabama temporarily in 1969. The Montgomery community raised money to purchase a 500-acre site seven miles east of the city near I-85. The new campus was built and occupied in 1971. Currently, its enrollment stands at approximately 5,000.

I BELIEVE THAT THIS IS A PRACTICAL WORLD AND
THAT I CAN COUNT ONLY ON WHAT I EARN.
THEREFORE, I BELIEVE IN WORK, HARD WORK.
I BELIEVE IN EDUCATION, WHICH GIVES ME THE
KNOWLEDGE TO WORK WISELY AND TRAINS MY
MIND AND MY HANDS TO WORK SKILLFULLY.
I BELIEVE IN HONESTY AND TRUTHFULNESS,
WITHOUT WHICH I CANNOT WIN THE RESPECT
AND CONFIDENCE OF MY FELLOW MEN.
I BELIEVE IN A SOUND MIND, IN A SOUND BODY
AND A SPIRIT THAT IS NOT AFRAID AND IN CLEAN
SPORTS TO DEVELOP THESE QUALITIES. I BELIEVE IN
OBEDIENCE TO LAW BECAUSE IT PROTECTS THE
RIGHTS OF ALL. I BELIEVE IN THE HUMAN TOUCH,
WHICH CULTIVATES SYMPATHY WITH MY FELLOW
MEN AND MUTUAL HELPFULNESS AND BRINGS
HAPPINESS FOR ALL. I BELIEVE IN MY COUNTRY,
BECAUSE IT IS A LAND OF FREEDOM AND BECAUSE
IT IS MY OWN HOME, AND THAT I CAN BEST SERVE
THAT COUNTRY BY "DOING JUSTLY, LOVING MERCY,
AND WALKING HUMBLY WITH MY GOD." AND
BECAUSE AUBURN MEN AND WOMAN BELIEVE IN
THESE THINGS, I BELIEVE IN AUBURN AND LOVE IT.
