WHAT IS A&P ALL ABOUT?

All non-faculty, “exempt” employees are members of the A&P employee group. The A&P Assembly was established to afford A&P employees representative participation in the University governance process.

The Assembly is an elected body established at Auburn University by the authority of the University Board of Trustees. The purpose of the Assembly is to advise the President regarding policies, procedures, and general welfare issues affecting A&P employees.

The A&P Assembly meets regularly throughout the year for information and business meetings. All A&P employees are encouraged to attend.
