

## University Scholarships

### Co-op FAQ

***How does my four-year scholarship work with my five year co-op schedule?***

Four-year scholarships awarded by University Scholarships are available for eight semesters. When you participate in a co-op program, the end term for your scholarship is extended each semester that you are working until you have used all eight semesters of your scholarship as an undergraduate student.

***Do I need to notify your office when I co-op and when I return?***

Our office routinely generates reports of students who are participating in co-op each semester, and we automatically adjust scholarships accordingly, so there is no need to notify us when you co-op or when you return. We will send an email to your Auburn email address when your scholarship is adjusted.

***What happens to my scholarship if I co-op two semesters in a row?***

If you co-op two semesters in a row, please contact our office to complete a Request for Non-Payment form.

***How does my co-op schedule affect the renewal requirements for my scholarship?***

The tables below show a typical co-op schedule along with what our office will review in determining your eligibility for renewal of your scholarship for the following academic year.

Fall	AU	Must earn a total of 24 Auburn hours between fall and summer and maintain a 3.0 cumulative, unadjusted Auburn GPA.
Spring	Co-op	
Summer	AU	

Fall	Co-op	Must earn a total of 12 Auburn hours during spring semester and maintain a 3.0 cumulative, unadjusted Auburn GPA.
Spring	AU	
Summer	Co-op	

***Am I required to enroll during the summer?***

Yes, during your co-op schedule there will be a year where it will be necessary to attend school during the summer to stay on course to renew your scholarship. Just like during any other semester, you must enroll for a minimum of 12 credit hours for your scholarship to pay.

***Do Department Scholarships work the same way?***

If you have a Department Scholarship, please check with the college/school or department that awarded the scholarship for more information.
