WELCOME TO AUBURN!

Welcome to the College of Human Sciences (CHS) – a diverse, inclusive environment where our goal is to produce tomorrow's leaders through education of the highest quality and a commitment to helping students make positive impacts on the world around us.

As a CHS student, you will learn how global issues impact the well-being of individuals, families and communities everywhere. You will also understand how human diversity generates a dynamic force for progress and how philanthropy is vital to solving social problems and improving quality of life in every way.

From what we consume, to where we live and how we interact with others, CHS provides a world-class education that requires students to reach beyond the classroom to gain practical experiences, an awareness of emerging trends, a realistic perspective of their place in the world and a realization of how they can make it a better place for all.

Here in the College of Human Sciences, we know that a genuine commitment to service excellence and lifelong learning is the foundation for success. Our rigorous curriculum and emphasis on a globalized education sets our graduates apart in the global marketplace. We are dedicated to providing everything you need to improve quality of life locally, nationally and around the world.

Let's change the world together.

From everyone in the College of Human Sciences, we are excited to be a part of your academic journey. This journey begins now, at Camp War Eagle 2022.

Here in Human Sciences, you will find a supportive environment where you are valued. In this college, we encourage, challenge and support our students through their academic and professional development.

The Academic Affairs Office is a resource for you and we encourage you to use it. Schedule an appointment with your academic advisor and let us get to know you and your goals. We look forward to helping create your future.

On behalf of the college, welcome and War Eagle! Let's get started!

Sincerely,

Alleah Crawford

Dr. Alleah Crawford

Associate Dean and Professor
College of Human Sciences

MAJORS

Apparel Merchandising, Design & Production Management

Options: Apparel Merchandising, Apparel Design & Production Management

Global Studies in Human Sciences

Hospitality Management

Options: Culinary Science, Event Management, Hotel & Restaurant Management

Human Development & Family Science

*Concentrations: Child & Adolescent Development, Adult Development,
Family Life Education*

Options: Early Child Development, Child Life

Interior Design

Nutrition, Dietetics & Wellness

Options: Dietetics, Nutrition Science, Wellness

Philanthropy & Nonprofit Studies

Human Development & Family Science

Hunger Studies

International Minor in Human Sciences

Philanthropy & Nonprofit Studies

Financial Planning (*Undergraduate Certificate*)

Health Equity Science (*Undergraduate Certificate*)

minors & certificate

7 undergraduate degrees 12 graduate degrees

1,540 STUDENTS

HOSPITALITY MANAGEMENT

ACPHA Accredited (Accreditation Commission for Programs in Hospitality Administration), a distinction held by only 74 programs worldwide

INTERIOR DESIGN

#7 in nation
#1 in the South
3 Faculty listed among 2019 Design Intelligence 25 Most Admired Faculty in the U.S.
CIDA Accredited (*Council for Interior Design Accreditation*)

APPAREL DESIGN

#15 in nation
#3 in the South

APPAREL MERCHANDISING

#10 in nation
#4 in the South

GLOBAL STUDIES

Every student completes two International Experiences

NUTRITION, DIETETICS & WELLNESS

ACEND Accredited (Accreditation Council for Education in Nutrition and Dietetics)
100% first year pass rate on the Registration Examination for Dietitians
100% placement in nationally competitive dietetics internships

HUMAN DEVELOPMENT & FAMILY SCIENCE

100% of HDFS students graduate with professional experience in their chosen career field
#7 in the U.S. — #5 in the Southeast

PHILANTHROPY & NONPROFIT STUDIES

New undergraduate major accepting students

STUDENT ORGANIZATIONS

APPAREL MERCHANDISING AND DESIGN ASSOCIATION (AMDA) – Professional organization for apparel students that sponsors the annual Fashion Event, which includes a fashion show and merchandising exhibition.

AUBURN UNIVERSITY STUDENT CHAPTER OF CLUB MANAGERS – Membership open to all hospitality management students who have an interest in club management or who identify with the standards of club management.

GLOBAL STUDIES CLUB – A service and professional organization for Global Studies in Human Sciences students, faculty and staff.

HUMAN SCIENCES STUDENT AMBASSADORS – A competitively-selected group of Human Sciences students who serve as College representatives to provide information about academic programs and careers in Human Sciences to alumni, visitors and prospective students and their families.

NATIONAL SOCIETY OF MINORITIES IN HOSPITALITY – A professional organization for hospitality management students established to educate and assist future leaders of the hospitality industry by providing networking opportunities and promoting diversity in hospitality.

THE ORGANIZATION FOR PROFESSIONALS IN HUMAN DEVELOPMENT – A Human Development and Family Science student organization for students interested in human development and family relations to increase professionalism and volunteer service among HDFS majors, and to promote and support HDFS as a profession.

THE SOCIETIES – Professional organization for interior design students comprised of the combined student chapters of the American Society of Interior Designers (ASID) and the International Interior Design Association (IIDA).

STUDENT DIETETIC ASSOCIATION (SDA) – Professional student organization affiliated with the Academy of Nutrition and Dietetics (AND) open to all nutrition and dietetics students.

STUDENT PHILANTHROPY BOARD – Leadership and mentoring initiative to support students seeking a Philanthropy and Nonprofit Studies minor, and who aspire to work in a nonprofit field. Supported by the Women's Philanthropy Board in the Cary Center.

HONOR SOCIETIES

ETA SIGMA DELTA – National scholastic honor society for junior and senior hospitality management majors with an overall minimum GPA of 3.0. Membership by invitation only.

GAMMA SIGMA DELTA – Scholastic honor society for outstanding CHS and College of Agriculture graduating seniors and graduate students with a minimum GPA of 3.0 and who are in the top 15% of their class.

KAPPA OMICRON NU – National honor society for outstanding Human Sciences students with a minimum 3.0 GPA who are in the top 20% of their junior and senior class. Membership by invitation only.

PHI KAPPA PHI – National scholastic honor society which recognizes and encourages academic excellence in all disciplines. Membership by invitation only to the top 5% of the graduating class in each college/school.

SIGMA IOTA RHO – Interdisciplinary honor society focusing on the fields of international affairs, international studies and global studies.

A great way to enhance your academic experience and resumé is by participating in student organizations and honor societies available to CHS students. Involvement in these organizations can help develop leadership and communication skills, explore professional interests and career avenues, and provide opportunities for enrichment and professional development.

For more information, visit AU Involve online at auburn.edu/auinvolve.

STUDY ABROAD OPPORTUNITIES

Human Sciences students have many opportunities to study quality of life across the globe. From backpacking around Europe to living with a tribe in Fiji, these programs are designed to broaden your horizons, open your eyes and globalize your education.

- ❖ *Joseph S. Bruno Auburn Abroad in Italy*
- ❖ *Hospitality Industry European Backpacking Tour*
- ❖ *Fiji: Sustainability in Action*
- ❖ *An Exploration of Food, Wine and Tourism of the French Riviera*
- ❖ *Mediterranean Diet Tour of Italy*
- ❖ *Cuisine and Culture in Malaysia and Thailand*
- ❖ *London Fashion Industry Tour*
- ❖ *Philanthropy and Nonprofit Studies in Great Britain*
- ❖ *Exploring Global Perspectives in Nepal*
- ❖ *South Africa: Community Engagement Across Cultures*
- ❖ *Hospitality and Cultural Immersion in Jordan*

All students are encouraged to pursue a study abroad opportunity. Those who have participated describe studying abroad as an invaluable part of their education.

Joseph S. Bruno Auburn Abroad in Italy

Few places are more of an academic paradise than Italy. Incredible art, history and culture are set against a backdrop of exquisite land and seascapes, amazing food and friendly people. As a student in the Joseph S. Bruno Auburn Abroad in Italy program, your assignment is simple: experience it all.

Our program is structured so that you will not just learn about Italian culture - you will live it as a full-time resident of Ariccia, a small town near Rome. You will be completely immersed in Italian history at Auburn's overseas campus, the grand Palazzo Chigi, a 15th century palace once home to Italian nobility. Our 12-week curriculum is fast-paced with a mix of classroom lectures followed by field trips to bring meaningful context to what you have learned.

By program's end, you will earn an International Minor in Human Sciences - an impressive addition to any resume in today's global society. Your worldview will flourish in ways you did not know were possible, gaining a better understanding of both the world and yourself. Most of all, your life will be enriched with memories and friendships that will last forever.

JOSEPH S. BRUNO
AUBURN ABROAD
IN ITALY

TIPS FOR SUCCESS

Check your Auburn email daily.

Ask for help as soon as you recognize a problem.

Use Academic Support Services such as Study Partners, Supplemental Instruction (SI), Academic Coaching and Peer Tutoring.

Do not be afraid to talk with your professors.

Get to know your academic advisor with regular advising appointments so that you stay on track to graduate on time.

Take responsibility for your own academic progress by going to class, communicating with your professors and reaching out to your advisor when you have questions.

Know the important dates each semester such as drop and add, first day of class, midterm, holidays and final exams.

Get involved with a professional student organization for your major or a club that interests you.

Prioritize getting enough sleep and eating healthy meals.

Schedule everything – use a planner for class times, work schedule, assignment due dates and even social activities.

Manage your time wisely.

ACADEMIC ADVISING PROCESS

Meeting with your advisor each semester will help keep you on track to progress smoothly toward completing your degree requirements. An advisor is able to help you make sure that you are planning to register for the appropriate courses, answer questions about possible course options and refer you to the right people and resources to discuss career and future education options, tutoring programs and counseling services.

The classes you take should be based on the academic plan you determined with your advisor during your advising meetings. Curriculum information, requirements for each major and a description of courses can be found in the AU Bulletin. What classes you take depend on your major (or intended major), your semester classification, the courses you still need in order to graduate or to enter a major.

ACADEMIC ADVISORS

The College of Human Sciences academic advisors are located in the Academic Affairs Office, 266 Spidle Hall.

Walk-in advising is available on a first-come, first-served basis every Wednesday from 9 - 11a.m. and 1 - 3p.m.

— OR —

Schedule an appointment outside of walk-in hours by visiting humsci.auburn.edu/acad/advising.php.

PEER ADVISORS

CHS peer advisors are upperclassmen enrolled in the College of Human Sciences who excel academically and want to help you succeed throughout your Auburn journey. They are here to help as mentors, motivators and volunteers, and can assist you with selecting courses and planning a schedule. They are also qualified to offer advice, recommend campus resources and answer questions about student life. Watch your email for dates and times that peer advisors are available.

FREQUENTLY ASKED QUESTIONS

Who is my advisor and how do I make an appointment?

Your academic advisor is assigned according to the first letter of your last name. Advisors are listed on page 9 of this booklet according to the part of the alphabet each advises. Also, see page 9 for details on using Advise Assist to schedule an appointment or drop by 266 Spidle on Wednesdays for walk-in advising from 9-11a.m. and 1-3p.m. This information can also be found at humsci.auburn.edu/acad.

What does a pre-health advisor do?

Pre-health advising incorporates a special focus on each student's academic plan. Your pre-health advisor will help you stay on track to graduate, plan your classes each semester and prepare for professional school exams. Pre-health advisors will also recommend extracurricular activities and job opportunities to help you become a standout candidate when applying to professional school or in health-related interviews. For more information, contact Linda Bruner in the Academic Affairs Office.

How do I get the courses I need or want?

Your academic advisor will help you decide which courses should be taken each semester and advise you on steps for registration. All students must meet with their assigned academic advisor to develop an approved plan of study that meets the course requirements for the student's declared degree option. This plan will be used to decide necessary scheduling for each semester. Students should not make changes to the plan of study until their advisor has been consulted.

Many courses have prerequisites that must be completed prior to registering for required courses or professional electives. It is the student's responsibility to make sure prerequisites have been satisfied or risk being dropped from the course. Students should carefully check projected course schedules of course offerings to be sure adjustments do not affect the projected graduation date.

How do I calculate my GPA?

Student grade point average (GPA) for previous semesters can be viewed in the student menu section of AU Access. Click on the My Academics tab when logged into AU Access, then Student Menu, Student Records and Final Grades link. There is a GPA calculator available online through the Provost's website to help project current semester GPA at <https://cws.auburn.edu/provost/gpacalc/calculator>.

What are professional electives and how are they selected?

Professional electives are a list of approved courses for each degree option from which students are allowed to choose courses that will help them prepare for a specific career path. A listing of approved professional electives is included on the curriculum sheet for the chosen degree option. Courses which fulfill the requirements of an approved minor can often be used to fulfill some, or all, of the professional elective requirements. Check with your advisor for more information.

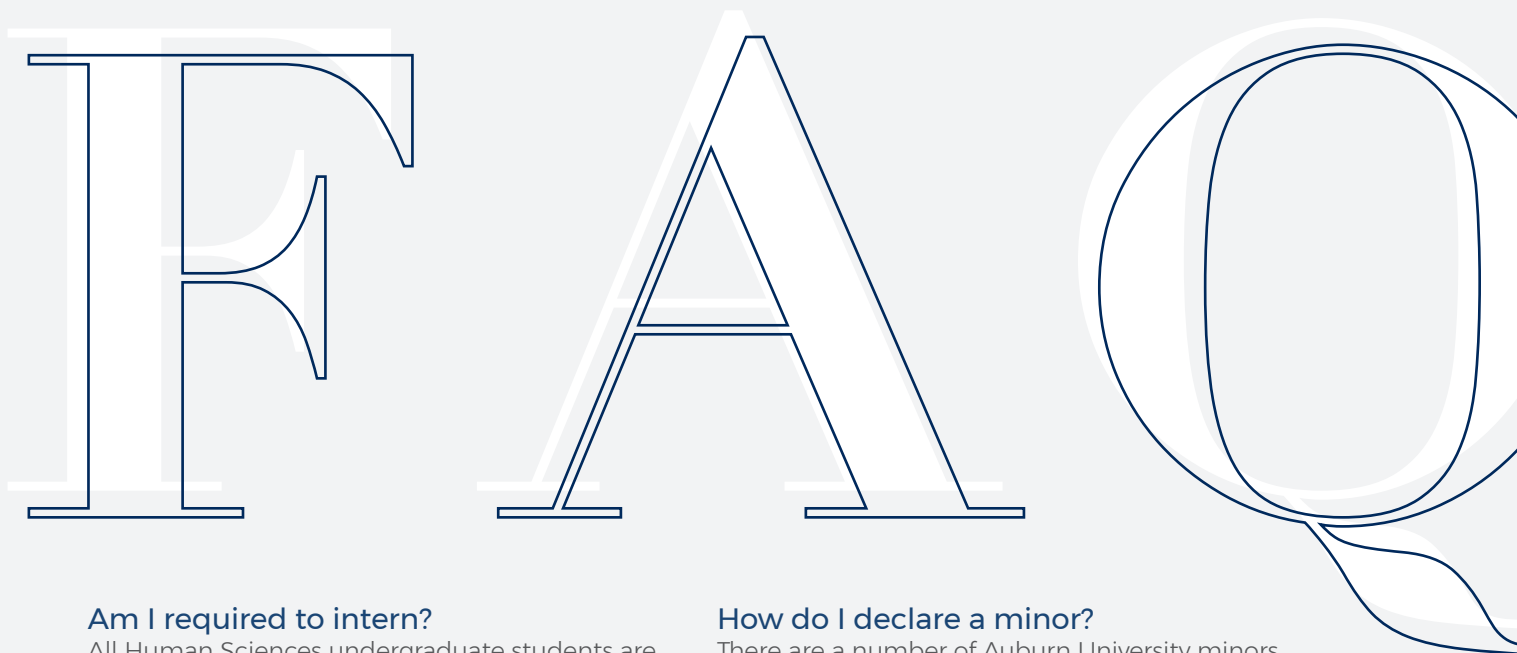

Can I take courses at another school?

University core curriculum courses and some of your professional electives may be completed at another school. Contact your advisor for more information about which courses will transfer as equivalent courses at Auburn. Students are not allowed to transfer in more than 60-61 semester hours from a junior or community college, depending on selected program. Also, the last 30 semester hours of course work must be completed at Auburn in order to graduate from Auburn University. Check with your advisor before registering for a class as transient at another institution to ensure transfer credit is allowed.

How can I apply for scholarships?

Application for all Auburn University scholarships can be made through the Auburn University Scholarship Opportunity Manager (AUSOM) online application. Generally, application deadlines are December 1 for incoming freshmen and February 1 for current students. For more information and to check application deadlines, visit auburn.edu/ausom.

Am I required to intern?

All Human Sciences undergraduate students are required to successfully complete a for-credit internship during their junior or senior year (except Nutrition). Check with your academic advisor for complete information regarding internships and any additional requirements that must be satisfied prior to interning.

How do I get an internship?

Students are responsible for obtaining their own internships. **We do not place interns.** Refer to your program's online internship handbook and contact the internship coordinator for information specific to your program. All students must discuss their internship plans with their respective program coordinator and also obtain approval of internship focus and placement from the coordinator prior to making a commitment to the internship site. Your program's internship coordinator can provide information about prior years' internship sites.

Is the internship paid?

The College of Human Sciences prefers that all internships be paid. However, we recognize that some internships offer unique and valuable learning experiences for students that may result in unpaid internships. Students will complete a payment information form with their internship contract and, if unpaid, must document why the unpaid placement is valuable.

How do I declare a minor?

There are a number of Auburn University minors available to Human Sciences students that will complement your career goals. Some of these are minors in human development and family studies, philanthropy and nonprofit studies, hunger studies, sustainability, foreign language, business and communication. Another minor opportunity is the International Minor in Human Sciences earned through participating in the semester-long Joseph S. Bruno Auburn Abroad in Italy program. Schedule a time to discuss minor opportunities with your advisor early in your academic program.

How do I learn more about study abroad opportunities?

The College of Human Sciences strongly encourages students to study abroad during their time at Auburn. These experiences are invaluable assets that set graduates apart when applying for jobs. Talk with your advisor early in your academic program to plan your schedule for the most appropriate time to participate in any of the unique experiences the College offers. To learn more about all of the study abroad options available, attend the Study Abroad Fair hosted by Global Studies each spring. Additional information about study abroad opportunities, including the Joseph S. Bruno Auburn Abroad in Italy program, can be found online at humsci.auburn.edu/global or by visiting the Office of Global Education in 334 Spidle.

The answers included in this section serve only as a guide and should not be relied upon without gathering additional information from appropriate sources.

DO YOU INTEND TO ENTER A HEALTH PROFESSIONAL FIELD?

Pre-Health is a Process

While many students may express an interest in pre-health, it is important for you to understand that it is not an actual major. Instead, your advisor will help you choose the major that best aligns with your interests and helps you become a competitive candidate for the many health related graduate programs available. Some of these majors include Nutrition Science, Nutrition Dietetics, Nutrition Wellness, Human Development & Family Studies, or Global Studies.

What Is the Role of a Pre-Health Advisor?

While your academic advisor guides you through your degree coursework and helps you register for classes, your pre-health advisor guides you through all of the requirements outside of the classroom that will make you a well-rounded and competitive applicant to the professional program of your choice. Your pre-health advisor can:

- Assist you in fulfilling the pre-requisite courses for dental, medical, pharmacy, physical therapy, physician assistant, occupational therapy, and optometry programs while completing your degree requirements
- Help identify and prioritize student organizations, community service, leadership roles, research positions, study abroad programs, job shadowing, and direct patient care hour experiences both on campus and in the Auburn/Opelika community that will enhance your resume and application
- Guide you through the centralized application service, selecting appropriate letters of recommendation, writing the personal statement, and interview preparation

A SNAPSHOT OF PRE-HEALTH SERVICES HUMAN SCIENCES OFFER:

Health Professions Reception

- Students have the opportunity to network with current healthcare professionals in the community
- Build connections for possible job shadowing experiences
- Obtain advice from healthcare practitioners
- Interact and build relationships with faculty
- Compare health professions to find the best fit
- Explore the challenges, rewards, and lifestyles of these profession

Personal Statement Workshop

- Preparing a successful essay for your application
- Suggestions for writing your best story and securing your interview
- Special guest speakers including alumni, admissions, and program directors
- Access to a wealth of resources

*In the heart of Auburn,
a world-class culinary
center opens fall
2022 for hospitality
students in the College
of Human Sciences
to earn an education
unlike any other.*

The Tony and Libba Rane Culinary Science Center is a one-of-a-kind educational facility that will prepare you to excel in the competitive hospitality industry through unparalleled teaching, research, and practice.

Active learning classrooms, a teaching restaurant, and labs equipped with the latest culinary technology will take the in-class experience to the next level. Whether your aspirations lie in dining, banqueting, wine appreciation, distilled spirits, confectionary, or brewing, the Rane Center has an environment crafted to your professional interests. Show off your work in the food and beverage multimedia studio, or help manage operations at the center's luxury-level boutique hotel. Bring the heat in the teaching restaurant of 1856 or launch your own business at the incubator spaces in the Hey Day market. At the Rane Center, the future of hospitality is what you make it.

Learn more about the Tony and Libba
Rane Culinary Science Center at
ranecenter.auburn.edu.

AP, IB, CLEP INFORMATION

Dependent upon the test scores received, you may be eligible to receive course credit for AP/IB courses. The scores should be provided from the testing agency; home report copies are acceptable. Please call (334) 844-2528 to verify what credit you are eligible to receive.

Note: Auburn University does not accept CLEP credit.

ACT (English) with a score of 30-34 will receive 3 hours credit for ENGL1100 (*English Comp I*).

ACT (English) with a score of 35-36 will receive 6 hours credit for ENGL1100 & ENGL1120 (*English Comp I & II*).

SAT (Verbal) with a score of 680-710 will receive 3 hours credit for ENGL1100 (*English Comp I*).

SAT (Verbal) with a score of 720 and above will receive 6 hours credit for ENGL1100 & ENGL1120 (*English Comp I & II*).

COMPUTER SPECIFICATIONS

All Human Sciences students are required to have a laptop computer.

Processor	Intel core i5
Memory	8 GB recommended
Hard Drive	256 GB (minimum)
Optical Drive	DVD/RW (optional)
Operating System	Windows 10 (version 1909) or MAC OS (Mojave)
Office Suite	Microsoft Office 365 is available to all Auburn University students free of charge.
Options	<p>Consider purchasing a multi-year (3 year) warranty. Apple Care or Safeway for MAC.</p> <p>Consider choosing an anti-theft option such as Lojack or Computrace by Absolute.</p> <p>Most laptop manufacturers offer an anti-theft option with multi-year subscriptions.</p> <p>Consider purchasing a 1TB external hard drive or use cloud storage for back-up.</p> <p>Auburn provides students with a free Box account.</p>

Adobe Creative Suite software is free for all currently-enrolled Auburn University students. Visit adobe.auburn.edu for more information.

Auburn students can purchase a variety of software through the Auburn University Bookstore at a substantial educational discount. Check with the Auburn University Bookstore before purchasing a software bundle with your new computer.

Notice for Pre-Interior Design students:

Pre-Interior Design (INDX) students do not have any specific technology requirements beyond the standard College of Human Sciences laptop requirements listed above. Those students who are admitted to the Interior Design (INDS) program will have specific hardware and software requirements for the major. These requirements will be emailed to students at their official auburn.edu email address in May, following completion of their INDX sequence and well in advance of the Fall term in which they will begin INDS courses.

APPAREL MERCHANDISING, DESIGN AND PRODUCTION MANAGEMENT

Department of Consumer and Design Sciences

DR. YOUNG-A LEE — **Department Head** — 334-844-1336 | 308 Spidle Hall

Class Questions: Tracie Burton — burtotl@auburn.edu

Auburn's nationally-ranked Apparel Merchandising, Design and Production Management degree program is renowned for producing some of the nation's top apparel industry professionals. Through an integrated approach to studying apparel throughout the supply chain, along with required internships in the U.S. or abroad, tailored to the student's career interests, graduates are equipped with the experience and expertise needed to advance in their careers. Year after year, employers and industry leaders applaud Auburn apparel graduates as among the best-educated and most prepared in the industry.

The mark of a successful designer or product developer is two-fold: fashion-forward creativity and an understanding that fashion begins and ends with the consumer. The ***Design and Production Management option*** is unique to Auburn due to its strong emphasis on developing an understanding of consumer preferences and identifying market niches, in addition to focusing on product development, design and production management principles. Students learn to manage apparel products from the first design concept all the way through retail sales.

The ***Design and Production Management option*** is structured around courses providing the necessary knowledge of raw materials and manufactured products, design and product development, production technology and marketing concepts.

The ***Merchandising option*** provides a solid foundation in textile and apparel product knowledge, combined with a focus on forecasting and interpreting consumer demand. In the fast-paced and dynamic fashion industry, success depends on having a unique perspective on the competitive, consumer-driven retail marketplace. Factors such as emerging global issues, rapidly advancing technologies and consumer behaviors all affect the world marketplace.

The ***Merchandising option*** emphasizes the internationalization of producing and marketing fashion-oriented products, and features a strong business orientation. And with a variety of professional electives from which to choose, students have ample opportunity to individualize the curriculum to meet their specific career goals.

Tentative Semester Course Offerings

FALL 2022 | SPRING 2023 | SUMMER 2023*

GLOBAL STUDIES

Office of Global Education

DR. KATE THORNTON — **Director** — 334-844-3748 | 334 Spidle Hall

Class Questions: Megan Elliott — mme0018@auburn.edu

Global Studies in Human Sciences students are critical thinkers who have a passion and desire to make a difference in today's world by improving quality of life in their communities and on the global stage. The Global Studies in Human Sciences curriculum teaches students to use problem-based learning and design-thinking methodologies to develop solutions to global issues. Through this course of study, students learn the realities of globalization and how local and global issues are interconnected, and develop a refined skillset that will equip them to work collaboratively with communities and organizations toward making the world a better place.

Global Studies focuses on topics such as hunger and food insecurity, community development and entrepreneurship, environmental sustainability, maternal and child health, education, global markets, humanitarian aid and social policy. To gain real-world experience with these issues, Global Studies majors are required to participate in a 12-credit hour internship. The College of Human Sciences has existing international agreements with community partners in Nepal, Fiji and South Africa, plus professional contacts on every continent except Antarctica.

All Global Studies students are required to complete at least one academic credit bearing study abroad experience during their time at Auburn – though it is not uncommon for most students to want to take more than one. Students across Auburn who have taken advantage of the numerous study abroad opportunities available have lauded the experience as transformative, eye-opening and even life-changing. The educational value of study abroad, especially to those studying global issues, is irreplaceable.

Auburn Global Studies graduates are prepared to step into roles in large national and multinational companies, philanthropic foundations, global and local nonprofits, as well as governmental and non-governmental organizations. Graduates have filled positions ranging from supply chain management, customer care, development and fundraising, advocacy and social media marketing. Global Studies graduates have also pursued Master's or Doctoral degrees in diverse fields such as law, public health, social entrepreneurship, nonprofit management and human development and family studies. The Global Studies interdisciplinary degree, coupled with the required minor, study abroad and internship, actively prepares students to become global citizens, and empowers them to pursue their passions.

HOSPITALITY MANAGEMENT

Department of Nutrition, Dietetics and Hospitality Management

DR. MARTIN O'NEILL — **Department Head** — 334-844-4261 | 328 Spidle Hall

Class Questions: Tanya Stringer — tds0001@auburn.edu

Auburn's Hospitality Management program is uniquely equipped with the resources, partnerships and curriculum to ensure graduates are well-prepared to lead successful careers in the premium service industry. A focus on hard work, real world experience, diversity and social responsibility is central to the program's intellectually-challenging learning environment. The Auburn Hospitality Management program is one of only a few dozen programs worldwide accredited by the Accreditation Commission for Programs in Hospitality Administration (ACPHA), earning the program a global reputation for hospitality excellence. Within the Hospitality Management degree program, students have the option to focus their studies on ***Event Management, Culinary Science or Hotel and Restaurant Management***.

The ***Hotel and Restaurant Management option*** is designed to prepare students for careers in the premium service segment of the lodging and food service industries. The ***Event Management option*** focuses on the planning, execution and evaluation of a myriad of special events. The new ***Culinary Science option*** will prepare the next generation of culinary scientists to combine hospitality business management and premium service with a scientific understanding of food and a comprehensive understanding of culinary arts.

Hospitality Management students have access to active learning space within the new Tony and Libba Rane Culinary Science center (coming fall 2022) and The Hotel at Auburn University and Dixon Conference Center, a state-of-the-art learning laboratory providing hands-on experience and insight into the day-to-day operation of a premier hotel. In addition, students will have the unique opportunity to learn in a first-of-its-kind culinary science center which will contain academic classroom and laboratory space, a teaching restaurant, brewery and food hall space, as well as a boutique teaching hotel and spa — all of which are designed to further enhance the Hospitality Management learning experience.

As part of their hospitality studies, students are encouraged to take advantage of the College's many study abroad opportunities, such as a four-week backpacking tour of Europe focused on tourism or a hospitality-focused alternative Spring Break to France. Additional competitive out-of-classroom enrichment opportunities are available to Hospitality Management students, including the Epicurean Tour of California - an annual tour that showcases the entire wine production cycle from grape growth to the final product.

HUMAN DEVELOPMENT AND FAMILY SCIENCE

Department of Human Development and Family Science

DR. ANGELA WILEY — **Department Head** — 334-844-4151 | 203 Spidle Hall

Student Services Coordinator and Class Questions: Adam Greer — adamgreer@auburn.edu

What makes a family work? How do children develop? What is a healthy marriage? What do teenagers need to succeed academically, personally, emotionally? These are a few of the questions we work to answer in the Department of Human Development and Family Science.

In Human Development and Family Science, students have a variety of opportunities to study quality of life throughout the life cycle. Whether focusing on individuals or family units, the HDFS department will ensure graduates are prepared to perform and understand research, then apply what is learned to benefit the well-being of the community at large.

The Human Development and Family Science curriculum is designed to prepare students to work with individuals and families to improve quality of life across the lifespan. Students can choose from several degree concentrations/options including *Early Child Development*, *Child Life*, *Child and Adolescent Development*, *Adult Development*, and *Family Life Education*.

These learning paths allow students to tailor their educational experience to align with their personal goals.

Students are prepared to work in the traditional hospital setting to provide support services for children with medical needs and their families. The *Early Child Development option* (ages birth-7 years), *Child and Adolescent Development concentration* (ages 7-20 years) and *Adult Development and Aging* (21 years and over) concentrations study how people develop physically, cognitively and socially within different environments across the lifespan. In the *Child Life option*, which requires an application and admittance. The *Family Life Education concentration* focuses on applying research-based knowledge to create and implement community-based programs and policies that enhance healthy family functioning.

INTERIOR DESIGN

Department of Consumer and Design Sciences

DR. PAMELA ULRICH – **Department Head** – 334-844-1336 | 308 Spidle Hall

Class Questions: Tracie Burton – burtotl@auburn.edu

Design improves human health and quality of life. The Interior Design undergraduate curriculum incorporates interactive studios to create a rigorous and unique educational experience by which graduates are expertly prepared to enter the professional realm.

An engaged advisory board, comprised of industry leaders and interior design alumni, complement the program's internationally respected faculty to guide interior design students on their educational journey. This rigorous program requires a professional internship which affords graduates a competitive edge by combining a first-rate education with real-world experience in the global marketplace.

The Auburn Interior Design program is accredited by the Council for Interior Design Accreditation (CIDA), required in most states in order to become a professional Interior Designer. CIDA accreditation, coupled with the myriad of accolades from the most respected industry publications and ranking bodies, means students graduate confident that this curriculum meets professional standards for quality and career preparation.

We spend 90% of our time indoors; Interior Designers shape it all – homes, corporate offices, hotels, restaurants and clubs, retail stores and visual displays, medical facilities, schools, conference centers, yachts, cruise ships, airplanes and airports.

Professional Fees

A professional fee of \$2,040 per semester is assessed for all undergraduate students enrolled in the Interior Design and Pre-Interior Design Programs (INDS and INDX). As of the 2018-19 academic year, any fee increase will be tied to a University tuition increase.

Tentative Semester Course Offerings

NUTRITION, DIETETICS AND WELLNESS

Department of Nutrition, Dietetics and Hospitality Management

DR. MARTIN O'NEILL — *Department Head* — 334-844-4261 | 328 Spidle Hall

Class Questions: Tanya Stringer — tds0001@auburn.edu

Nutrition integrates the fields of human physiology, biochemistry and metabolism to explore their relationships with food, health and disease. The Nutrition curriculum also incorporates psychology and social sciences to understand health-related behaviors and outcomes. In this undergraduate degree program, whether choosing the *Dietetics*, *Nutrition Science* or *Wellness option*, students will develop a well-rounded understanding of how food affects quality of life on a scientific level and be prepared to help people improve that relationship.

The *Dietetics option* provides students the education and training needed to become a Registered Dietitian (RD) / Registered Dietitian Nutritionist (RDN). Students completing this dynamic, intellectually-challenging plan of study will acquire all the tools necessary to improve quality of life through nutrition, including the opportunity for real-world experience via a 1,200-hour supervised practice requirement.

The *Nutrition Science* and *Nutrition/Wellness options* are designed for those interested in pre-health tracks. These options will provide a sound scientific understanding of complex nutrition issues related to health and disease, and offer a path to post-graduate health studies. After completing the *Wellness option*, graduates find positions in nonprofit health organizations, hospital-based programs and corporate wellness, as well as federal, state and local health agencies. Graduates of the *Nutrition Science option* often pursue health professional schools such as medical, dental, optometry, pharmacy, physician's assistant and physical therapy, as well as graduate study in nutrition and other health-related disciplines. For students interested in pharmacy, a partnership between the Nutrition Science program and the Harrison School of Pharmacy gives students the opportunity to earn a Pharm.D. in only seven years.

Tentative Semester Course Offerings

FALL 2022 | SPRING 2023 | SUMMER 2023*

Note: Tentative Schedule-Course offerings are subject to resource availability and minimum class enrollments. Please check the semester schedule of courses available through AU Access for course offering information each semester. **All courses are subject to change.**

Pr = prerequisite: course required to be completed before another

Co = corequisite: course required to be taken at the same time as another

***Offered in summer only if funding is available and adequate enrollment is obtained.**

Undergraduate Courses NTRI Course Number and Name		Credit Hour	Fall	Spring	Summer*
2000	Nutrition & Health. Credit will only be given for one of the following courses: NTRI 2000, 2007	3	✓	✓	✓
2007	Honors Nutrition & Health, Pr: Honors College	3		✓	
2010	Basic Sports Nutrition, Pr: BIOL 1020/1027 or NTRI 2000/2003/2007	3	✓

5910	Clinical Practicum in Dietetics, Pr: NTRI 5020, 5030. NTDI or department approval	1		✓	

PHILANTHROPY AND NONPROFIT STUDIES

Department of Consumer and Design Sciences

DR. PAMELA ULRICH — **Department Head** — 334-844-1336 | 308 Spidle Hall

Class Questions: Tracie Burton — burtotl@auburn.edu

Charitable giving has increased steadily over the past several years, with billions gifted to philanthropic endeavors every year. Based on this increased demand for philanthropic-minded professionals, the College of Human Sciences implemented a new undergraduate degree program to support this growing industry and to support its mission to produce graduates prepared to improve quality of life for all.

The new undergraduate degree program in Philanthropy and Nonprofit Studies specializes in equipping students with the tools they need to become integral members of philanthropic endeavors and nonprofit organizations that are giving back in substantial ways. Through this plan of study, students focus on solving critical social problems through philanthropy and nonprofit work.

In class, students will learn how to build solid personal and organizational financial foundations

to support philanthropic projects and lead nonprofit enterprises. Topics such as collegiate consuming and giving, nonprofit studies, portfolio development, nonprofit law/governance and gender, wealth and philanthropy will be presented by faculty experts and professional guest lecturers in an engaged, active learning environment.

Outside of the classroom, students will be prepared to apply this knowledge through internships and practical application opportunities. Graduates of the program may be employed as program directors or officers for corporate or private foundations, fundraisers, grant writers, operations specialists and managers. Those jobs must be filled by highly-educated, dedicated professionals who fully grasp the significance of philanthropy for families, communities and the world – a perfect fit for Philanthropy and Nonprofit Studies graduates.
