

WHERE DO I FIND.....?

Tom Starkey
September 2015

The problem.....

- A question comes up at the nursery such as “What can I use to control_____?” or “Where can I find the Research Report that discussed PAC?”.
- What do you do????

Approach # 1

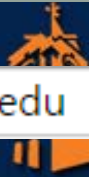

Approach # 2

Research Reports

2015

15-01 Effect of Timing and Rate of Marengo® (Indaziflam) Applications on Weed Control and Tolerance to Loblolly, Longleaf, Slash and Shortleaf Pine Seedlings Grown in Containers

15-02 A Modified Method for Calculating a Partial Soil Water Retention Curve to Help in Irrigation During the Growing Season

15-03 Evaluation of Sumagrow™ as a Biological Soil Amendment/Inoculant for the Production of Loblolly and Slash Pine

15-04 Effect of Terracyte®Pro and Ecotec® Applications on Moss Control and Tolerance to Container-Grown Fraser Fir Seedlings

15-05 The Use of Seed Polymers and Seed Colorants as Seed Treatments for Southern Pines

2014

14-01 Operational Application of Pendulum® Aquacap™ (Pac) Tank Mixed With Goal® at the Time of Sowing Reduces Prostrate Spurge Without the Formation of Herbicide Galls

14-02 Effect of Pac-Induced Herbicide Galls on Seedling Growth and Survival 12 Months After Outplanting

14-03 Effect of Timing of Pac Applications 8, 12, And 16 Weeks After Sowing on Herbicide-Induced Gall Formation and Seedling Growth

14-04 Effect of Timing and Rate of Marengo® (Indaziflam) Applications on Weed Control and Loblolly Pine Seedling Characteristics at the Arborgen Supertree Nursery in Shellman, Ga

14-05 Effect of Imazamox (Raptor® and Clearcast®) Application at the Time of Sowing on 4 Hardwood Seedling Species at the Chatsworth Nursery in Ga and the East Tennessee Nursery

14-06 Effect of Ronstar® Flo, Alone and in Tank Mixes with Pendulum® Aquacap™ and Goal® 2xl at the Time of Sowing on the Production of Loblolly Pine and Weed Control in Five Different Nurseries

2013

13-01 Evaluation of Methyl Bromide Alternatives on Loblolly Pine Production and Seedling Quality Over Three Growing Seasons at the Pine Hill Nursery in Camden, Alabama

13-02 Evaluation of Plastic, Reduced Rates and Low Impact Application Methods on Loblolly Pine Production and Seedling Quality Over Three Growing Seasons

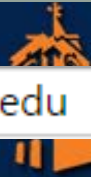

13-03 The Effect of Hardwood Seed Size, Species and Nursery Soils on the Formation of Stem Galls and Seedling Tolerance to Applications of Pendulum AquaCap

13-04 Annual Sedge (Cyperus Compressus) Control in Loblolly Pine

13-05 Controlling Morning Glory (Ipomoea Sp.) in Hardwoods Using Pre and Post-Emergence Herbicides at the East Tennessee and Native Forest Nurseries

Publications

RNGR.net has a searchable database of over 7000 technical articles, many of which are available for download in PDF format. Use the search feature on this page or see below for a selection of specific publications.

Search Publications by keyword or author: Search

Tree Planters' Notes (1950 - present)

This publication is dedicated to technology transfer and publication of research information relating to nursery production and outplanting of trees, shrubs, and native plants for reforestation, conservation, and restoration.

You can subscribe to the Tree Planters' Notes (TPN) mailing list here. If you are an existing subscriber, you can also edit your subscription information.

Forest Nursery Notes (1993 - present)

Forest Nursery Notes (FNN) is a nursery news and literature service that is distributed free of charge to over 1,200 cooperators in the United States, Canada, and other foreign countries.

You can subscribe to the Forest Nursery Notes (FNN) mailing list here. If you are an existing subscriber, you can also edit your subscription information.

National Nursery Proceedings (1949 - present)

Search by keyword or browse by year and event. Either way, you can access hundreds of proceedings articles from 1949 to present.
