

## **A Resolution on the Establishment of an Interdisciplinary Degree Program**

Whereas, individualized, interdisciplinary degrees provide flexibility for combining the study of several academic disciplines to create a single major resulting in a practical and employable degree, and

Whereas, interdisciplinary degrees with a focus on career development allow students to experience greater confidence when making career choices, and

Whereas, an interdisciplinary format provides students with the flexibility to combine coherent areas of study that are of special interest and combine courses that are not possible through existing degree plans,

Therefore, be it resolved that the Auburn University Senate supports the concept of having an interdisciplinary degree program at Auburn University
